RIVERSIDE COUNTY FLOOD CONTROL AND WATER CONSERVATION DISTRICT

November 21, 2016

To the Members of the Board of Supervisors and Citizens served by the Riverside County Flood Control and Water Conservation District:

State law requires that every general-purpose local government publish, within six months of the close of each fiscal year, a complete set of audited financial statements. The Riverside County Flood Control and Water Conservation District (District) is a component unit of the County of Riverside, California. This report is published to fulfill that requirement for the fiscal year ended June 30, 2016.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The Pun Group, Certified Public Accountants, have issued an unqualified ("clean") opinion on the District's financial statements for the year ended June 30, 2016. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. Management's discussion and analysis complement this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The District, formed in 1945 by an Act of the State Legislature, is located in the southern part of the state within the County of Riverside, which boasts the tenth largest numeric increase in population in the country.¹ The District currently occupies 2,677 square miles and serves a population of approximately 1.92 million. The District is divided into seven geographic zones and is empowered to levy property or special assessment tax on both real and personal property located within the boundaries of each zone. Taxes collected within each zone must be spent for flood control projects within, or proportionally beneficial to, that zone.

The County of Riverside, Board of Supervisors, ex officio, has been the District's governing body since 1945. Policy making and legislative authority are vested in the Board, consisting of five members elected on a non-partisan basis. Board members serve staggered four-year terms with member seats opening for election on an alternating basis. The Board of Supervisors appoints the District's General Manager-Chief Engineer, who in turn appoints the heads of the various divisions within the District.

¹ Source: U.S. Census Bureau, Estimates of the Components of Resident Population Change: April 1, 2010 to July 1, 2015

Additionally, the Board of Supervisors appoints three Zone Commissioners to each zone. The Zone Commissioners act as an advisory body to the Board of Supervisors by prioritizing the need for new flood control facilities within a zone based on requests from citizens, cities and other agencies within the zone boundaries, and making budget recommendations for new or pending projects in the upcoming fiscal year.

The District provides a full range of services, including the design and construction of flood control facilities; regulatory services which fulfill legal requirements associated with federal and state programs that relate to District activities; surveying and mapping services; watershed protection services; planning services that relate to land development, and provide for the public's health and safety by contributing to orderly development and growth within the County; the operation and maintenance of the District's fleet and facilities, land interests, and encroachment issues; information technology services providing technical support to the District staff; and administrative services providing clerical, financial and personnel support to the District staff.

The Board of Supervisors is required to adopt by resolution a final budget for the County of Riverside, including all districts, agencies and authorities governed by the Board of Supervisors, no later than October 2nd of each year pursuant to Sections 29080 through 29092 of the Government Code. The Board of Supervisors adopted the District's 2016 fiscal year budget on July 7, 2015. The annual budget serves as the foundation for the District's financial planning and control. The District's budget is prepared by fund and class or appropriation level (e.g., salaries and benefits, services and supplies) within each category present on the financial statements. The District may transfer resources between appropriation levels within the same fund at their discretion and with approval by the County of Riverside Executive Office. Increase of resources or establishment of a new appropriation level requires approval by the Board of Supervisors.

Local Economy

The District oversees the western portion of the Riverside County which includes twenty-two cities and unincorporated county communities west of the San Jacinto and Santa Rosa Mountains. Riverside County is California's fourth largest populated county according to the State Department of Finance. It represents 6.0% of California's total population.² Riverside County is part of a larger area known as Southern California's Inland Empire, comprised of Riverside and San Bernardino counties. It is approximately 60 miles from north to south and some 50 miles wide. Major industries located within the Riverside County include government, retail trade, educational and health services, leisure and hospitality, and construction.

From June 2015 to June 2016, the Inland Empire added 45,393 jobs or 3.3%. This reflects a constant upward trend in job growth for local government employment. The 2016 gain has been led by logistics (11,617), construction (6,233), K-12 education (5,767) and health care (4,333). The June 2016 unemployment rate of 6.6% was down slightly from the 6.7% reported in June 2015. The number of unemployed fell by -1,000 (-0.8%).³

Over the past ten years, the District's expenses related to the construction and maintenance of flood control facilities have not only increased in amount, but have also increased as a percentage of total expenses (a ten-year increase of 372%). This increase in construction and maintenance costs as a percentage of total expenses coincides with an increase of total expenses (a ten-year increase of 29%). Maintenance costs for the current fiscal year ended have increased by 13% from the prior year.

² Source: State of California, Department of Finance, E-1 Population Estimates for Cities, Counties and the State with Annual Percentage Change – January 1, 2015 and 2016. Sacramento, CA, May 2016

³ Source: Inland Empire Quarterly Economic Report, July 2016

With the fluctuation of the economy, the District continues to follow a moderate construction schedule. The District's practice has been to accumulate monies for large projects, while maintaining a prudent reserve for operations and maintenance.

During this same ten-year period, charges for services decreased, both in amount and as a percentage of total revenues (reflecting a ten-year decrease of 90%).

Long-term Financial Planning

Timely project development is facilitated by the District's five-year Capital Improvement Plan (CIP) which provides a long-range plan for funding of designated flood control and drainage infrastructure projects. The CIP details revenues and expenditures anticipated for each project for a five-year period. The CIP is an internal document and is provided as information in the District's annual budget. The CIP does not contain all projects that need to be completed, but rather those projects that will be initiated during the prescribed five-year period.

Relevant Financial Policies

The District's cash and investments, stated at fair value, are on account with and pooled with other governmental agencies by the County of Riverside Treasurer for the purpose of increasing income through investment activities. U.S. Bank Corporate Trust Services serves as the District's fiscal agent for special assessment debt and cash reserves. See *Note 2* in the *Notes to Financial Statements* section of this report for more detailed information.

Major Initiatives

During the fiscal year ended June 30, 2016, the District issued notices of completion for seven projects totaling over \$32.6 million dollars in construction costs. At the close of the fiscal year, the District had four construction contracts in progress totaling an additional \$43 million dollars. The majority of these projects are estimated for completion by the end of calendar year 2016.

Especially notable among the fiscal year 2016 projects is the Romoland Line A construction contract. This \$14.3 million dollar Homeland Line 1 and Juniper Flats Basin contract will complete most of the area's flood control spine and enable the upcoming tracts and commercial development to build the attached drainage ribcage for the valley. This project is a good example of the District and County working to achieve "smart growth". Namely, ensuring that infrastructure is built concurrently with the new development rather than retrofit afterward.

The District is proud to report that the Eagle Canyon Dam and Debris Basin project received top honors as Project of the Year by the American Society of Civil Engineers (ASCE) San Bernardino/Riverside Chapter. The Dam is designed to hold 185-acre feet of water and 40 acre-feet of debris providing flood and hazard protection to Cathedral City.

Further, the following District-administered flood control project contracts were completed during, or were under construction at the end of fiscal year 2015/2016:

<u>Facilities</u>	<u>Construction Cost</u>
Temescal Creek - Foster Road Storm Drain, Stg1	\$ 1,661,553
Gilman Home Channel Lateral A, Stg3 & Stg90	\$ 4,113,754
Romoland MDP Line A, Stg3	\$ 5,599,999
Eagle Canyon Dam And Debris Basin	\$ 9,849,777
Palm Springs MDP Line 43 & Lateral 43A	\$ 4,995,874
Stetson Ave Stormdrain, Stg7 (Hemet MDP Line D)	\$ 398,777
Little Lake MDP Line B Stg1	\$ 6,000,000

Romoland MDP Line A, A-2,A-3, & Briggs Basin	\$ 26,777,777
Santa Ana Canyon - Below Prado - Inland Empire Brine Line	\$ 6,307,935
Homeland MDP line 1 Stage 1 and Juniper Flats basin	\$ 14,344,444

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2015. This was the twenty-fourth consecutive year that the District published an easily readable and efficiently organized CAFR that satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated service of the entire staff of the finance and administration divisions. We wish to express our appreciation to all members of the District who assisted and contributed to the preparation of this report. A special thanks to Darrylenn Prudholme-Brockington, Principal Accountant, for her efforts in the preparation of this report. Credit must also be given to the Board of Supervisors, for their unfailing support in maintaining the highest standards of professionalism in the management of the District's finances.

Respectfully submitted,

JASON UHLEY

INDEPENDENT AUDITORS' REPORT

To the Board of Supervisors
of the Riverside County Flood Control and
Water Conservation District
Riverside, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Riverside County Flood Control and Water Conservation District (the "District") as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

To the Board of Supervisors
of the Riverside County Flood Control and
Water Conservation District
Riverside, California
Page Two

Emphasis of Matter

Financial Condition

As of June 30, 2016, the District's governmental activities had an unrestricted net position deficit of \$33,359,909. Management's plans regarding those matters are described in the Management's Discussion and Analysis. The basic financial statements do not include any adjustments that might result from the outcome of these uncertainties. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of Changes in Net Pension Liability and Related Ratios during the Measurement Period – Retirement Program, the Schedule of Plan Contributions – Retirement Program, the Schedules of Funding Progress – Other Post Employment Benefits, and the Budgetary Comparison Schedules for each major fund on pages 5 through 15 and 60 through 75 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Combining and Individual Nonmajor Fund Financial Statements, and the Introductory and the Statistical Section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining and Individual Nonmajor Fund Financial Statements are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Nonmajor Fund Financial Statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

To the Board of Supervisors
of the Riverside County Flood Control and
Water Conservation District
Riverside, California
Page Three

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 21, 2016 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "The PwC Group, LLP". The signature is written in a cursive, flowing style.

Management's Discussion and Analysis

As management of the Riverside County Flood Control and Water Conservation District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i - iv of this report. All monetary amounts, unless otherwise indicated, are expressed in the nearest dollar.

Financial Highlights

- ◆ The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$1,117,500,062 (*net position*).
- ◆ The District's total net position increased by \$13,558,235. Approximately 85 percent of this increase is attributable to the addition of donated capital assets, i.e., infrastructure and land, net of investment related expenses.
- ◆ The (\$33,359,909) deficit reported in unrestricted net position is the result of the District's unfunded pension obligation.
- ◆ As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$206,340,981, a decrease of \$34,331,541 in comparison with the prior year. Approximately 1% of this amount (\$1,968,101) is *available for spending* at the District's discretion (*unassigned fund balance*).
- ◆ At the end of the fiscal year, unrestricted fund balance (the total of the committed, assigned, and unassigned components of fund balance) for the general fund was \$3,332,970, or 68 percent of total general fund expenditures.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets, liabilities and deferred inflows/outflows, with the difference reported as *net position*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the District include general government and public ways and facilities. The business-type activities of the District include subdivision operations, photogrammetry operations and encroachment permits.

The government-wide financial statements can be found on pages 16-18 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources*, available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains 13 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund and the special revenue funds, both of which are considered to be major funds. The capital project fund and the debt service fund, nonmajor funds, are presented as *Other Governmental Funds* in the basic governmental fund financial statements.

The District adopts an annual appropriated budget for its governmental funds. Budgetary comparison statements have been provided for the governmental funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 19-25 of this report.

Proprietary funds. The District maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The District uses *enterprise funds* to account for its subdivision, photogrammetry and encroachment permit operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses internal service funds to account for its hydrology, garage, project maintenance, mapping services and data processing. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the subdivision operation, which is considered to be a major fund of the District. Data from the other two enterprise funds is combined into a single, aggregated presentation. Individual fund data for each of these non-major enterprise funds is provided in the form of *combining statements* elsewhere in this report. Conversely, the five internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report.

The District adopts an annual appropriated budget for its proprietary funds.

The basic proprietary fund financial statements can be found on pages 27-29 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statement can be found on page 30 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 31-58 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the District's schedule of changes in the net pension liability during the

measurement period reported, schedule of plan contributions, progress in funding its obligation to provide other post-employment benefits to its employees. Required supplementary information can be found on pages 59-74 of this report. The combining statements referred to earlier in connection with non-major governmental funds, enterprise funds and internal service funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages 75-92 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government’s financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$1,117,500,062 at the close of the most recent fiscal year.

By far the largest portion of the District’s net position (85 percent) reflects its net investment in capital assets (e.g., land and easements, buildings and improvements, infrastructure, and equipment). The District uses these capital assets to provide services to prevent and to protect citizens from flooding within the District’s zone boundaries; consequently, these assets are *not* available for future spending.

District’s Net Position
(Expressed in the Nearest Thousands)

	Governmental Activities		Business-type Activities		Total	
	2016	2015	2016	2015	2016	2015
Current and Other Assets	\$ 227,714	\$ 264,512	\$ 5,592	\$ 5,815	\$ 233,306	\$ 270,327

Total Net Position	\$ 1,116,758	\$ 1,102,997	\$ 742	\$ 947	\$1,117,500	\$ 1,103,944

An additional portion of the District’s net position (18 percent) represents resources that are subject to external restrictions on how they may be used. As noted earlier, the deficit balance of (\$33,038,476) reported in unrestricted net position (-3 percent) is primarily the result of the District’s unfunded pension liability.

The District’s overall net position increased \$13,558,235 from the prior fiscal year. The District experienced a net increase primarily due to changes increased investments in capital assets.

Governmental activities. During the current fiscal year, net position for the Governmental activities increased the District's net position by \$13,762,153 from the prior fiscal year, thereby accounting for 102 percent of the total increase in net position for the District. Key elements of the increase are as follows:

District's Changes in Net Position

- ◆ Historically, ongoing revenues have exceeded expenses as a percentage of net position by approximately less than 1.0 to 4.0 percent in a given fiscal year. During the year, overall revenues decreased by 17 percent due to a decrease of donated capital assets of 79 percent. This decrease is due to an increase of previously donated capital assets being placed in service during the current fiscal year. Ongoing revenues continued to exceed expenses by \$9,034,643 (1% as a percentage of net position).

For the most part, increases and decreases in expenses paralleled inflation and growth in the demand for services. Noteworthy exceptions include the following:

- ◆ A decrease in Capital Grants and Contributions revenue of \$17,466,851 (79 percent) associated with donated capital assets (infrastructure and land in various zones) being placed in service.
- ◆ A decrease in Charges for Services revenue of \$2,554,101 (34 percent) largely associated with a decrease in Area Drainage Plan fees collected during the current fiscal year.

Expenses and Program Revenues - Governmental Activities

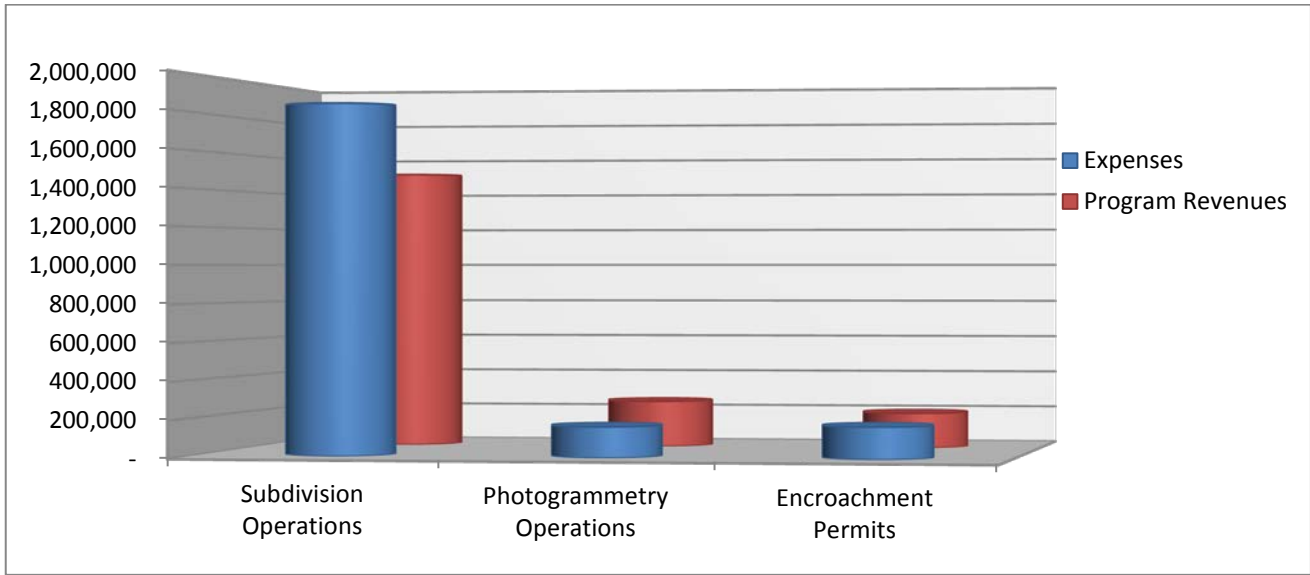

Revenues by Source - Governmental Activities

Business-type activities. Business-type activities decreased the District's net position by \$203,918. Key elements of the decrease are as follows.

- ◆ An increase in fees relating to engineering services of \$204,196 (53 percent of overall increase in operating expenses) as a result of increased development activity within the Subdivision Operations fund.
- ◆ Overall charges for services for business-type activities increased by 34 percent while expenses increased by 21 percent from the previous fiscal year. Historically, increases and decreases in charges for services and expenses are development related and will vary based on development activity within the County of Riverside. Development activity within the Subdivision operations has increased by 26 percent over the past year due to fluctuation in the economy. Normal operating expenses closely paralleled inflation and the overall increase in the demand for services for this fiscal year.

Expenses and Program Revenues - Business-type Activities

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *restricted, assigned and unassigned* fund balances may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$206,340,981 a decrease of \$34,331,541 in comparison with the prior year. The majority of this total amount (\$202,642,411) constitutes *restricted fund balances*, which reflect resources that are subject to externally enforceable legal restrictions that arise when the authorization to raise revenues is conditioned upon the revenue being used for a particular purpose, e.g., maintenance and construction of flood control facilities within designated zone boundaries. *Unassigned fund balance* (\$1,968,101) reflects surplus resources in the District's general fund that are available for spending at the District's discretion. The remainder of fund balance is *assigned fund balance* (\$1,364,869) and reflects resources that the District intends to use to fund accrued compensated absence liabilities as required and *nonspendable fund balance* (\$365,600) for imprest cash and prepaid items.

The general fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$1,968,101, while total fund balance reached \$3,333,570. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 40 percent of total general fund expenditures, while total fund balance represents 68 percent of that same amount.

During the current fiscal year, the fund balance in the District's general fund increased by \$159,297. The increase in fund balance is a result of decreased expenditures. Capital outlay expenditures decreased by \$96,784 due to reductions in large equipment purchases compared to the prior year. In addition, general government expenditures decreased by \$982,960 largely due to a liability judgement that was paid in the prior fiscal year.

The special revenue funds account for the following:

- ◆ Revenues and expenditures related to providing flood control facilities maintenance and the design and construction of flood control facilities within defined geographical areas Zone 1 through Zone 7 (zone funds).
- ◆ Revenues and expenditures related to the administration of and compliance with the National Pollutant Discharge Elimination System (NPDES) regulations for the Whitewater, Santa Ana and Santa Margarita benefit assessment areas (NPDES funds).

The zone funds had an aggregate fund balance of \$192,715,200 at the end of the current fiscal year. The aggregate net decrease in fund balance during the current year was \$35,564,872. Key factors in the aggregate net decrease are as follows:

- ◆ *Zone 1* reported a fund balance of \$25,145,123 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$2,642,033. Property tax and redevelopment revenues account for approximately 93 percent of total revenues in this fund and can fluctuate from year to year based on property values and foreclosures within the zone boundary as well as economic activity within the County of Riverside. Fluctuation in property tax revenues can positively or negatively impact growth in fund balance.

In comparison to the prior year, the positive change in fund balance reflects an increase of approximately 542 percent (\$3,239,869). Overall revenues decreased (\$223,868) as a result of decreases in redevelopment revenue (\$25,549) and area drainage fees (\$914,232). These decreases offset increases in property tax revenue (\$276,125), intergovernmental revenue (\$197,251), charges for services (\$51,261), investment earnings (\$53,503), and use of assets from the lease of land (\$137,773). Additionally, expenditures decreased (\$3,594,531) due largely in part to decreases in construction activity (\$4,731,746).

- ◆ *Zone 2* reported a fund balance of \$70,203,721 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$993,754. Property tax and redevelopment revenues account for approximately 96 percent of total revenues in this fund and can fluctuate from year to year based on property values and foreclosures within the zone boundary as well as economic activity within the County of Riverside. Fluctuation in property tax revenues can positively or negatively impact growth in fund balance.

In comparison to the prior year, the positive change in fund balance reflects an increase of approximately 1 percent (\$11,654). Overall revenues increased (\$2,016,851) as a result of increases in property tax revenue (\$614,708), redevelopment revenue (\$1,303,301), area drainage fees (\$15,114), and investment earnings (\$89,067). These increases offset the decreases in intergovernmental revenue (\$2,808), charges for services (\$2,395), and use of assets from the lease of property (\$137). Additionally, expenditures increased (\$1,911,364) due primarily to increased costs to construct the Inland Empire Brine Line Protection Project.

- ◆ *Zone 3* reported a fund balance of \$10,742,746 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$669,003. Property tax and redevelopment revenues account for approximately 97 percent of total revenues in this fund and can fluctuate from year to year based on property values and foreclosures within the zone boundary as well as economic activity within the County of Riverside. Fluctuation in property tax revenues can positively or negatively impact growth in fund balance.

In comparison to the prior year, the positive change in fund balance reflects an increase of approximately 189 percent (\$1,420,877). Overall revenues decreased (\$500,944) as a result of decreases in intergovernmental revenue (\$543,828) and charges for services revenue (\$123,441). These decreases offset the increases in property tax revenue (\$79,230), redevelopment revenue (\$64,895) and investment earnings (\$22,200). Additionally, expenditures decreased (\$1,956,473) due largely in part to the decreases in construction activity (\$2,015,140).

- ◆ *Zone 4* reported a fund balance of \$40,830,890 at the end of the current fiscal year. The net decrease in fund balance during the current fiscal year was \$36,592,897. Property tax and redevelopment revenues account for approximately 95 percent of total revenues in this fund and can fluctuate from year to year based on property values and foreclosures within the zone boundary as well as economic activity within the County of Riverside. Fluctuation in property tax revenues can positively or negatively impact growth in fund balance.

In comparison to the prior year, the negative change in fund balance reflects a decrease of approximately 787 percent (\$40,720,050). Overall revenues decreased (\$311,686) as a result of decreases in area drainage fees (\$1,574,442) and use of assets from the lease of property (\$8,455). These decreases were offset by increases in property tax revenue (\$875,180), redevelopment revenue (\$265,240), intergovernmental revenue (\$22,918), charges for services (\$44,394), and investment earnings (\$63,479). Additionally, expenditures increased (\$15,740,993) due largely in part to increased costs to construct the flood control facilities, Romoland MDP, Little Lake MDP, Hemet MDP, and Homeland MDP.

- ◆ *Zone 5* reported a fund balance of \$13,251,787 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$2,124,475. Property tax and redevelopment revenues account for approximately 95 percent of total revenues in this fund and can fluctuate from year to year based on property values and foreclosures within the zone boundary as well as economic activity within the County of Riverside. Fluctuation in property tax revenues can positively or negatively impact growth in fund balance.

In comparison to the prior year, the positive change in fund balance reflects an increase of approximately 179 percent (\$4,830,751). Overall revenues increased (\$306,457) as a result of increases in property tax revenue (\$207,969) intergovernmental revenue (\$14,311), charges for services (\$73,569), investment earnings (\$24,119), and use of assets from the lease of property (\$6,450). These increases were offset by a decrease in redevelopment revenue (\$19,961). Additionally, expenditures decreased (\$4,547,387) due primarily to decreased construction activity (\$4,095,565).

- ◆ *Zone 6* reported a fund balance of \$12,185,020 at the end of the current fiscal year. The net decrease in fund balance during the current fiscal year was \$4,720,726. Property tax and redevelopment revenues account for approximately 91 percent of total revenues in this fund and can fluctuate from year to year based on property values and foreclosures within the zone boundary as well as economic activity within the County of Riverside. Fluctuation in property tax revenues can positively or negatively impact growth in fund balance.

In comparison to the prior year, the negative change in fund balance reflects a decrease of approximately 87 percent (\$2,191,218). Overall revenues increased (\$602,814) due primarily to decreases in property tax revenue (\$210,368), redevelopment revenue (\$60,000), charges for services (\$283,690), investment earnings (\$4,291), and use of assets from the lease of property (\$44,896). These increases offset the decrease in intergovernmental revenue (\$431). Additionally, expenditures increased (\$2,709,559) due largely in part to the increases in construction costs related to the flood control facility, Palm Springs MDP.

- ◆ *Zone 7* reported a fund balance of \$20,355,913 at the end of the current fiscal year. The net decrease in fund balance during the current fiscal year was \$680,514. Property tax and redevelopment revenues account for approximately 90 percent of total revenues in this fund and can fluctuate from year to year based on property values and foreclosures within the zone boundary as well as economic activity within the County of Riverside. Fluctuation in property tax revenues can positively or negatively impact growth in fund balance.

In comparison to the prior year, the negative change in fund balance reflects an increase of approximately 96 percent (\$15,968,581). Overall revenues increased (\$504,868) as a result of increases in property tax revenue (\$248,193), redevelopment revenue (\$60,906), and area drainage fees (\$115), charges for services revenue (\$79,505), and investment earnings (\$21,363). These increases were offset by decreases in intergovernmental revenue (\$757). Additionally, expenditures decreased (\$15,523,282) due largely in part to decreased construction costs (\$10,950,565) and professional service fees (\$1,890,068).

The NPDES funds had an aggregate fund balance of \$10,273,849 at the end of the current fiscal year. The aggregate net increase in fund balance during the current year was \$1,073,834. Key factors in the net decrease are as follows:

- ◆ *NPDES Whitewater* reported a fund balance of \$1,883,901 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$331,815. Special assessment revenues account for approximately 50 percent of total revenues in this fund and can fluctuate from year to year based on economic activity in the County of Riverside and property foreclosures within the watershed boundary. Fluctuation in special assessment revenues could positively or negatively impact growth in fund balance.

In comparison to the prior year, the positive change in fund balance reflects an increase of approximately 28 percent (\$73,118). Overall revenues decreased (\$58,276) due primarily to decreases in contributions from other agencies (\$65,190). Additionally, expenditures decreased (\$133,026), due largely in part to decreases in professional services costs to meet reporting requirements for federally mandated regulatory compliance programs (\$38,471); as a result, salaries also decreased (\$52,018).

- ◆ *NPDES Santa Ana* reported a fund balance of \$6,535,134 at the end of the current fiscal year. The net increase in fund balance during the current fiscal year was \$766,812. Special assessment revenues account for approximately 81 percent of total revenues in this fund and can fluctuate from year to year based on economic activity in the County of Riverside and property foreclosures within the watershed boundary. Fluctuation in special assessment revenues could positively or negatively impact growth in fund balance.

In comparison to the prior year, the positive change in fund balance reflects an increase of approximately 21 percent (\$131,200). Overall revenues increased (\$59,390) as a result of increases in special assessments (\$42,519) and investment earnings (\$16,871). Additionally, expenditures decreased (\$91,651) due largely in part to decreases in professional services costs to meet reporting requirements for federally mandated regulatory compliance programs (\$205,660), and in NPDES contributions to other conservation organizations for storm water/clean water educational programs (\$15,769).

- ◆ *NPDES Santa Margarita* reported a fund balance of \$1,854,814 at the end of the current fiscal year. The net decrease in fund balance during the current fiscal year was \$24,793. Special assessment revenues account for approximately 30 percent of total revenues in this fund and can fluctuate from year to year based on economic activity in the County of Riverside and property foreclosures within the watershed boundary. Fluctuation in special assessment revenues could positively or negatively impact growth in fund balance.

In comparison to the prior year, the positive change in fund balance reflects a decrease of approximately 95 percent (\$535,871). Overall revenues decreased (\$206,521) as a result of decreases in contributions from other agencies (\$217,139). Additionally, expenditures increased (\$305,450) due largely in part to increased professional services costs incurred for services related to new federally mandated compliance programs (\$56,021) and in salaries to support storm water/clean water educational programs (\$148,020).

The nonmajor funds, Flood Control Capital Project Fund and Zone 4 Debt Service Fund, reported an aggregate total fund balance of \$18,362 at the end of the current fiscal year. The aggregate net increase in fund balance during the current year in was \$200. Transfers in are used to offset budgeted capital outlay and debt service costs incurred in any given fiscal year.

Proprietary funds. The District's proprietary funds provide the same type of information found in the government-wide statements, but in more detail.

Unrestricted net position at the end of the year for 1) Subdivision operations amounted to (\$634,153), 2) Photogrammetry operations amounted to \$875,582, and 3) Encroachment permit operations amounted to \$371,810. The total decrease in net position for Subdivision operations was \$327,790. The total increase in net position for 1) Photogrammetry operations was \$88,577 and 2) Encroachment permit operations was \$19,583. Other factors concerning the finances of these three funds have already been addressed in the discussion of the District's business-type activities.

Fiduciary Funds. The District maintains fiduciary funds to account for resources held for the benefit of parties outside of the District. The District’s agency funds are reported under the fiduciary funds and are primarily used to account for debt without government obligation.

General Fund Budgetary Highlights

During the year there were no adjustments made between the original and final amended budget increasing general fund appropriations.

Significant budgetary variances between the final amended budget and the actual amounts are a result of the following components:

- ◆ Total actual expenditures were less than budgetary estimates by \$374,261. The \$374,261 variance was due primarily to costs budgeted for capital outlay expenditures that were not purchased during the fiscal year. Budgeted expenditures decreased by 9 percent from the prior year. There was an 18 percent decrease in actual expenditures from the prior year.
- ◆ Total actual revenues, including transfers in, exceeded budgetary estimates by \$58,003. The \$58,003 variance was due in large part to redevelopment pass-thru payments received during the fiscal in excess of budgeted amounts. Budgeted charges for services revenues increased by 9 percent from the prior year.

Capital Assets and Debt Administration

Capital assets. The District’s investment in capital assets for its governmental and business-type activities as of June 30, 2016, amounts to \$946,874,442 (net of accumulated depreciation). This investment of capital assets includes land and easements, construction in progress, infrastructure, land improvements, building and improvements and equipment. The total increase in the District’s investment in capital assets for the current fiscal year was 3 percent (a 3 percent increase for governmental activities and a 60 percent decrease for business-type activities).

Major capital asset events during the current fiscal year included the following:

- ◆ Capital assets (infrastructure and land) were donated to the District as a result of prior year development within the County; donated infrastructure and land at the end of the current fiscal year was \$1,363,558.
- ◆ A variety of flood control construction projects which began in the prior fiscal year were completed and new construction began; construction in progress at the end of the current fiscal year was \$81,036,157.

District’s Capital Assets
(Expressed in Nearest Thousands, Net of Depreciation)

	Governmental activities		Business-type activities		Total

Additional information on the District’s capital assets can be found in Note 5 on pages 47-48 of this report.

Long-term debt. The District Act limits the amount of general obligation debt the District may issue to the lesser of 3.75 percent of assessed valuation or \$21 million. The District had \$22,830,956 in negotiable promissory notes outstanding at the end of the current fiscal year to finance the construction certain flood control facilities located in Zone 4 of the District, including but not limited to the construction of the Romoland MDP Line A, Stage 4 project. The principal of, premium, and interest on the Notes are payable from the revenues and taxes of Zone 4.

Economic Factors and Next Year's Budgets and Rates

- ◆ The United States remains on a moderate growth trajectory sustained by gains in employment, income, and consumer spending. Nonfarm payroll employment increased from 215,000 in July 2015 to 287,000 in June 2016. The unemployment rate fell from 5.3 percent in June 2015 to 4.9 percent in June 2016. Consumers are increasing their spending as well as earning more money. Consumers contributed almost 3% to growth in the 2nd quarter. Sales of new and existing homes have hit post 'Great Recession' highs in the recent months. The improved financial situation of the average American household combined with low interest rates is estimated to lead to increased residential construction in the second half of 2016.
- ◆ Despite the drought, California's economy is expected to grow faster this year than the U.S. economy. California added 483,000 new jobs over the past year. California employment increased by 3% in the past year compared with 2% for the U.S. economy. The unemployment rate fell from 6.2 percent in May 2015 to 5.4 percent in June 2016. Health care, Professional, scientific, and technical services sector jobs have been the largest contributor to employment growth over the past year. New home construction is struggling to advance while the market for rentals is increasing.
- ◆ The Inland Empire is continuing to expand. 196,708 jobs have been created with an additional 48,700 forecasted for the calendar year 2016. Year over year job growth remains at a steady rate of 2.0 percent. The public sector played a major part in economic growth in the last year. Although, the region's unemployment rate rose to 6.6 percent in June 2016 from 6.4 percent in May 2015. The population of the Inland area is continuing to expand as the region's affordability continues to draw more residents and push population growth higher than other regions in Southern California. Construction employment has grown for five straight years. New home sales are rising with Riverside County up 24.7 percent in the first quarter 2016.

All of these factors were considered in preparing the District's budget for the 2017 fiscal year.

The District estimates total revenue of \$100.1 million for fiscal year 2016-2017, an increase of \$6.4 million from fiscal year 2015-2016. Total appropriations are estimated to be \$180.4 million, a decrease of \$5.6 million from fiscal year 2015-2016. The District's appropriation budget for all funds totals \$180.4 million for fiscal year 2016-2017, a decrease of \$5.6 million from the District's fiscal year 2015-2016 adopted budget.

Total estimated revenue for the seven zones is \$73.4 million for the 2016-2017 fiscal year, an increase of \$0.4 million, less than 1 percent, from the 2015-2016 fiscal year. The revenue increase for fiscal year 2016-2017 is due primarily to higher anticipated tax revenue.

The zone budgets for fiscal year 2016-2017 propose appropriations totaling \$148.9 million, a decrease of \$7.9 million, or 5%, from the prior year budget. This represents 83% of the District's total appropriations of \$180.4 million. This represents a net decrease of \$7.8 million from the prior year's budgeted appropriations primarily due to the near completion of a \$25 million project in Zone 4. The \$148.9 million in zone appropriations will provide for all District activities in the zones and includes funds for forty-nine (49) capital infrastructure projects.

Non-zone fund revenues are estimated to be \$26.7 million for fiscal year 2016-2017, an increase of \$6.0 million, or 29% from fiscal year 2015-2016. Non-zone fund appropriations are proposed to be \$31.5 million for fiscal year 2016-2017. This represents an increase of \$2.3 million, or 7.7%, from the prior fiscal year.

Appropriations are projected to increase by \$1.6 million in the General Fund due to anticipated retirement payouts. The Capital Project Fund appropriation is proposed to decrease by \$250,000 due to reduced Building Upgrade plans. The newly established Debt Service Fund requires \$2.9 million in payments for Zone 4 promissory notes. Enterprise fund appropriations are expected to increase by \$186,000 based on increased service requests in the Encroachment Permit and Photogrammetry funds. Appropriations for the Internal Service funds are proposed to increase by \$345,000 for anticipated fleet purchases in the Garage/Fleet Operations fund.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Finance Director, Riverside County Flood Control and Water Conservation District, 1995 Market Street, Riverside, CA 92501.

Riverside County Flood Control and Water Conservation District
Reconciliation of the Governmental Funds Balance Sheet to the
Government-wide Statement of Net Position - Governmental Activities
June 30, 2016

Fund Balances - Total Governmental Funds (Page 21) \$ 206,340,981

Amounts reported for governmental activities in the statement of Net Position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds, net of \$3,255,469 reported in Internal Service Funds. 966,447,861

Internal service funds are used by management to charge the costs of hydrology services, garage, project maintenance, mapping services, data processing, and photography to individual funds. The assets and liabilities of these funds are included in governmental activities in the statement of Net Position, net of \$128,511 allocated to business-type activities. 9,071,961

The net OPEB asset (NOA) should be adjusted for any difference between contributions made and the annual required contributions (ARC). A positive year-end balance in the NOA should be recognized as the year-end asset in relation to the ARC in governmental activities in the statement of net position. 683,384

Other long-term assets are not available to pay for current period expenditures and, therefore, are reported as unavailable revenue in the governmental funds balance sheet and should be recognized in the government-wide statement of activities as revenue thereby increasing unrestricted net position in the government-wide statement of Net Position. 1,046,942

Deferred inflows and outflows of resources related to pension activity are not reported in the governmental funds but are included in the statement of Net Position.

Deferred outflows of resources	\$ 9,343,131	
Deferred inflows of resources	<u>(7,867,517)</u>	1,475,614

Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds.

Net pension liability	(40,877,098)	
Promissory notes, including unamortized premiums	(22,830,956)	
Compensated absences, net of \$164,308 reported in internal service funds	(4,278,944)	
Accrued interest payable	<u>(321,433)</u>	<u>(68,308,431)</u>

Net Position of Governmental Activities (Page 18) \$1,116,758,312

Reconciliation of the Statement of Revenues, Expenditures, and
Changes in Fund Balances of Governmental Funds to the
Government-wide Statement of Activities - Governmental Activities
For the Year Ended June 30, 2016

Net Change in Fund Balances - Total Governmental Funds (Page 25) \$(34,331,541)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlay as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and are charged to depreciation expense.

Expenditures for capital assets, net of \$1,495,360 reported in Internal Service Fund	\$54,630,837	
Donation of Capital Assets	1,363,558	
Less current year depreciation, net of \$810,227 reported in Internal Service Fund	(10,207,781)	
Net effect on disposal of capital assets	<u>(7,210)</u>	45,779,404

Earned but unavailable revenues reported in the governmental funds balance sheet as deferred inflows of resources should be recognized in the government-wide statement of activities as revenue regardless of availability. 53,866

Change in unavailable revenue	<u>53,866</u>	
-------------------------------	---------------	--

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental fund.

Pension expense	335,013	
Change in accrued other postemployment benefits (OPEB) asset	50,180	
Change in compensated absences, net of \$49,745 reported in Internal Service Fund	(178,425)	
Amortization of bond premium	242,328	
Interest Expense	<u>(321,433)</u>	127,663

Internal service funds are used by management to charge the costs of certain activities to individual funds. The change in Net Position of certain internal service funds is reported with governmental activities, net of \$15,712 allocated to business-type activities 1,782,761

The issuance of long-term debt provides current financial resources to governmental funds. However, the repayment of principal reduces long-term liabilities in the governmental activities statement of net position. 350,000

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A) Reporting Entity

The Riverside County Flood Control and Water Conservation District (the District) was created by an act of the State Legislature on July 7, 1945 to provide financing for the construction and maintenance of flood control facilities. The governing board of the District consists of the same five members of the Board of Supervisors as Riverside County, California, and the Board has the authority to impose its will on the District. Therefore, the District is considered to be a component unit of the County for financial reporting purposes. As required by accounting principles generally accepted in the United States of America, these financial statements present all the fund types of the District.

B) Basis of Presentation

Government-wide Financial Statements

The statement of net position and statement of activities display information about the District's activities. These statements include the financial activities of the District, except for fiduciary activities. It is the District's policy to make eliminations to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the District. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely, to a significant extent, on fees charged to external parties.

The *statement of activities* presents a comparison between program expenses and program revenues for each segment of the *business-type activities* of the District and for each function of the District's *governmental activities*. *Program expenses* include such direct expenses that are specifically associated with a program or function and therefore, are clearly identifiable to a particular function. *Program revenues* include 1) charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented instead as *general revenues*.

When an expense is incurred for a purpose for which both restricted and unrestricted net assets are available, management has discretion as to which resources apply. It is the District's policy to use restricted resources before unrestricted resources.

C) Fund Financial Statements

The fund financial statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category - *governmental*, *proprietary*, and *fiduciary* - are presented. The emphasis of the fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are separately aggregated and reported as nonmajor funds.

Proprietary fund *operating revenues*, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. *Nonoperating revenues*, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

C) Fund Financial Statements - Continued

The District reports the following as major governmental funds:

- ◆ The *General Fund* is used to account for all revenues and expenditures necessary to carry out basic governmental activities of the District that are not accounted for through other funds. For the District, the General Fund includes such activities as general government and capital outlay.
- ◆ *Zones 1 through 7* are special revenue funds established to account for revenues and expenditures related to providing flood control in each geographical zone. These funds are financed primarily by ad valorem property taxes, developer fees, local cooperative agreements, federal monies, and monies from other local governments.
- ◆ *NPDES Whitewater* is a special revenue fund used to account for revenues and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Whitewater assessment area. Primarily the benefit assessment area finances this fund.
- ◆ *NPDES Santa Ana* is a special revenue fund used to account for revenues and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Santa Ana assessment area. Primarily the benefit assessment area finances this fund.
- ◆ *NPDES Santa Margarita* is a special revenue fund used to account for revenues and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Santa Margarita assessment area. Primarily the benefit assessment area finances this fund.
- ◆ Data from the District's remaining two governmental funds are combined into a single aggregated presentation as *Other Governmental Funds*. Individual fund data for both of these nonmajor governmental funds is provided in the form of combining statements in the supplementary information section.

The District reports the following major enterprise funds:

- ◆ The *Subdivision Operations Fund* accounts for various services needed by developers in the construction of projects within the County. Revenues are primarily for charges for services.

The District reports the following additional fund types:

- ◆ *Internal Service Funds* account for the District's Hydrology Services, Garage, Project Maintenance, Mapping Services, Data Processing and Photography, on a cost-reimbursement basis.
- ◆ The *Agency Funds* account for assets held by the District as an agent for individuals, private organizations, boards, commissions and other governmental entities or funds not part of the District's reporting entity, but for which the District acts in a fiduciary capacity. The District reports on 3 different agency funds.

D) Basis of Accounting and Measurement Focus

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, special assessments, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

D) Basis of Accounting - Continued

Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Agency funds report only assets and liabilities under the accrual basis and have no measurement focus.

Governmental fund type financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues and other governmental fund type financial resources are recognized when they become susceptible to accrual - that is, when they become both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Property taxes, contracts and other nonexchange transactions are considered available and are accrued when received within sixty days after fiscal year-end. Revenue received from expenditure driven (cost-reimbursement) grants, as defined by GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, are considered available and accrued if expected to be received within twelve months after fiscal year-end.

E) Cash and Investments and Cash and Investments with Fiscal Agents

The District's cash from operations is deposited in the County Treasury. The County pools its funds with other government agencies in the County and invests them as prescribed by the California Government Code and the County of Riverside's Investment Policy. The District's deposits in the County pool may be accessed at any time. The District is allocated interest income on monies deposited with the County based on its proportional share of the pooled investments. All pooled investments and investments with fiscal agent are carried at fair value. The fair value of participants' positions in the pool is not the same as the value of the pooled shares. Restricted cash of \$2,174,071 and \$3,108,989, for governmental and proprietary funds respectively, consists mostly of developer and other agency deposits for specific purposes.

In December 1994, the Board of Supervisors created an Investment Oversight Committee to work with the County Treasurer to oversee County investment policies, to include the District. The Committee reviews the County's investment strategy and the status of the County's investments and reports its finding to the Board. The Investment Oversight Committee has reviewed and approved investment policies for funds held outside the County Treasury.

For purposes of the statement of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

F) Fair Value Measurement

In accordance with GASB Statement No. 72, *Fair Value Measurement and Application*, this statement defines fair value, establishes a framework for measuring fair value and establishes disclosures about fair value measurement. Investments, unless otherwise specified, recorded at fair value in the financial statements, are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Levels of inputs are as follows:

Level 1 - Inputs are unadjusted, quoted prices for identical assets and liabilities in active markets at the measurement date.

Level 2 - Inputs, other than quoted prices included in Level 1, that are observable for the assets or liabilities through corroboration with market data at the measurement date.

Level 3- Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the assets or liabilities at the measurement date.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

G) Deferred Outflows/Inflows of Resources

The statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. The District recognizes deferred outflows of resources on the government-wide financial statements in relation to pensions.

The statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District reports an item under this category on the governmental funds balance sheet, under the modified accrual basis of accounting, labeled *unavailable revenue* from two sources: property taxes and special assessments expected to fund the current year but received in a future period. The District also recognizes deferred inflows of resources on the government-wide financial statements in relation to pensions.

H) Property Taxes

Under California law, property taxes are assessed and collected by counties for up to 1 percent of assessed value, plus other increases as approved by affected voters. Property tax revenues are pooled and then allocated based on assessed valuation. Property taxes on the secured rolls are payable in two installments, November 1 and February 1. Property tax payments become delinquent after December 10 and April 10, respectively.

Remittance of property taxes to the District is accounted for within each appropriate fund. Under the Teeter Plan, the District receives its current-year tax from the County without regard for the delinquency factors.

Property taxes are assessed and collected each fiscal year according to the following property tax calendar:

Lien Date	January 1		
Levy Date	July 1 to June 30		
Due Date	November 1	-	1 st Installment
	February 1	-	2 nd Installment
Delinquent Date	December 10	-	1 st Installment
	April 10	-	2 nd Installment

I) Inventories and Prepaid Items

Inventories, which consist of materials and supplies held for consumption, are valued at the lower of cost (on a first-in, first-out basis) or market in the proprietary funds. Inventories for all governmental funds are valued at average cost. The consumption method is used to account for inventories. Under the consumption method, inventories are recorded as expenditures when consumed rather than when purchased. Material amounts of inventory are reported as assets of the respective fund.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

J) Capital Assets

Capital assets, which include property (e.g. land and easements), plant (e.g. buildings, improvements), equipment (e.g. vehicles, computers, office equipment) and infrastructure (e.g. drainage systems, flood control, and similar structures), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary funds statement of net position. Capital assets are recorded at historical cost or estimated cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. The capitalization thresholds are as follows: \$5,000 for equipment, \$1 dollar for buildings (structures), land and land improvements, and \$150,000 for infrastructure.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Infrastructure:	Flood Channels and Levees	99 years
	Dams/Basins	99 years
	Storm Drains	65 years
Structure and	Buildings	50 years
Improvements:	Building improvements	50 years
Equipment:	Autos, personal computers and equipment valued at less than \$25,000	3 years
	Computer items, small trucks and equipment valued between \$25,000 and \$75,000	5 years
	Large trucks and equipment valued at greater than \$75,000	7 years

K) Compensated Absences

Permanent District employees earn from 10 to 20 vacation days annually, depending upon their length of employment, and 12 sick days a year. Employees can carry forward up to a maximum of three times their annual vacation accrual and an unlimited number of sick days for use in subsequent years.

Upon termination or retirement, District employees are entitled to receive compensation at their current salary for all unused vacation time. If an employee retires from the District with at least five years of service, the employee is entitled to receive from 10 percent to 50 percent of the value of any unused sick leave up to 120 days.

L) Long-term Debt

The District reports long-term debt of governmental funds at face value in the government-wide statement of net position. Certain other governmental fund obligations not expected to be financed with current available financial resources are also reported in the government-wide statement of net position. Long-term debt and other obligations financed by the proprietary fund types are reported as liabilities in the appropriate proprietary fund types and in the government-wide statement of net position. Governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued. The premiums, discounts, and deferred gains and losses are reported in the government-wide statement of net position and are amortized over the life of the debt.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

M) Operating/Nonoperating Revenues and Expenses

The District defines its operating revenues as revenues derived from charges for services. All other revenue that is not derived directly from charges for services, including interest income and gain/loss on sale of assets, is classified as nonoperating in the accompanying statement of revenues, expenses, and changes in fund net position.

Consistent with the treatment in the accompanying statement of cash flows, all expenses, with the exception of interest expense, are treated as operating expenses on the accompanying statement of revenues, expenses and changes in fund net position.

N) Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

O) Interfund Transactions

Interfund transactions are reflected as loans, provided services, reimbursements or transfers. Loans are reported as receivables and payables as appropriate, are subject to elimination upon consolidation and are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances".

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not available financial resources.

Provided services, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide presentation.

P) Net Position/Fund Balances

The government-wide and business-type activities fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted.

- ◆ Net Investment in Capital Assets - This category reports all capital assets, including infrastructure, into one component of net position. Accumulated depreciation reduces the balance in this category. The amount is further reduced by the associated debts, net of unspent debt proceeds.
- ◆ Restricted Net Position - This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- ◆ Unrestricted Net Position - This category represents the net position of the District, not restricted for any project or other purpose.

When expenses are incurred for purposes of which both restricted and unrestricted net positions are available, the District's policy is to apply restricted net position first, then unrestricted net position as needed.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

P) Net Position/Fund Balances - Continued

In accordance with Government Accounting Standards Board Statement No. 54 - *Fund Balance Reporting and Governmental Fund Type Definitions* and the District's Fiscal Policy F2, Fund Balance Policy, the District classifies governmental fund balances as follows:

- ◆ Nonspendable - includes amounts either not in spendable form, or legally or contractually required to be maintained intact.
- ◆ Restricted - constraints placed on the use of amounts are either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.
- ◆ Committed - includes amount committed for specific purposes by the Board of Supervisors, the District's highest level of decision making authority, by adopting an ordinance prior to the end of the fiscal year to commit fund balance. Amounts classified as "Committed" are not subject to legal enforceability like restricted fund balance; however, those amounts cannot be used for any other purpose unless the Board of Supervisors removes or changes the limitation by taking the same form of action it employed to previously impose the limitation. Action to constrain resources must occur prior to year-end; however, the amount can be determined in the subsequent year.
- ◆ Assigned - includes amounts, intended by the District, to be used for specific purposes. Amounts are neither restricted nor limited. The Board of Supervisors has, by resolution, delegated the authority to assign amounts to be used for specific purposes to the Finance Director and District management for the purpose of reporting these amounts in the financial statements.
- ◆ Unassigned - includes any remaining amounts after classifying fund balances according to the fund balance categories of nonspendable, restricted, committed and assigned. The general fund is the only governmental fund that reports a positive amount of unassigned fund balance. However, if a governmental fund other than the general fund were to have nonspendable, restricted, and committed fund balance in excess of total fund balance, the difference would be reported as negative unassigned fund balance.

Fund Balance Spending Order

Unless legal requirements disallow it, the District will spend the most restricted dollars before less restricted in the following order: (1) Nonspendable (if the funds become spendable), (2) Restricted, (3) Committed, (4) Assigned, (5) Unassigned.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

P) Net Position/Fund Balances - Continued

Minimum Fund Balance Policy for Governmental Funds

The following minimum fund balance guidelines for governmental funds have been established by the District's Fiscal Policy F2, Fund Balance Policy, to ensure a sufficient level of fund balance is maintained for unanticipated expenditures, delays in revenue receipt, or revenue shortfalls:

◆ Unrestricted Fund Balance - General Fund

The District shall achieve an unrestricted fund balance in its General Fund equal to a minimum of 66 percent of General Fund expenditures. The District will annually evaluate the minimum fund balance provisions and make adjustments according to an assessment of current events and circumstances as well as changing forecasts, projections and other related risks.

The District has established a contingency account and budgets the minimum assigned fund balance in the General Fund with the recommended budget submitted to the Board of Supervisors for approval each fiscal year. Should the minimum fund balance drop below the prescribed level, the District will develop a plan to replenish the minimum fund balance within two years and include the plan with the recommended budget submitted to the Board of Supervisors for approval in the following budget year.

Q) Developer And Other Agency Deposits

Developer and other agency deposits are deposits made by developers and other governmental agencies to support services or work performed by the District on behalf of said developers and governmental agencies. Revenue is recognized when it is earned and the liability is decreased accordingly.

R) Pensions

The pension expense is for the measurement period of 2014-15 and the net pension liability is measured as of June 30, 2015. Liabilities are based on the results of the actuarial calculations performed as of June 30, 2014 and were rolled forward to June 30, 2015.

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Plan and addition to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the CalPERS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms.

Investments are reported at fair value. Projected earnings on pension investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred inflows of resources or deferred outflows of resources and amortized as a component of pension expense on a closed basis over a five year period.

Other gains and losses related to changes in total pension liability and fiduciary net position are recognized as pension expenses over time. They are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits as of the beginning of the measurement period.

S) Implementation of Governmental Accounting Standards Board (GASB) Pronouncements

Governmental Accounting Standards Board Statement No. 72

In February of 2015, GASB issued Statement No. 72, *Fair Value Measurement and Application*. This statement was issued to enhance comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This Statement requires disclosures to be made about fair value measurements, the level of fair value hierarchy and valuation techniques. It also requires additional disclosures regarding investments in certain entities that calculate net asset value per share (or its equivalent). Statement No. 72 is effective for periods beginning after June 15, 2015. The District has implemented GASB No. 72 which is reflected in the notes to the financial statements.

Governmental Accounting Standards Board Statement No. 73

In June of 2015, GASB issued Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, And Amendments to Certain Provisions of GASB Statements 67 and 68*. This Statement establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68, Accounting and Financial Reporting for Pensions, as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68. It also amends certain provisions of Statement No. 67, Financial Reporting for Pension Plans, and Statement 68 for pension plans and pensions that are within their respective scopes. Statement No. 73 is effective for periods beginning after June 15, 2015. There is no effect of this statement on the District's financial statements.

Governmental Accounting Standards Board Statement No. 76

In June of 2015, GASB issued Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The objective of this Statement is to identify—in the context of the current governmental financial reporting environment—the hierarchy of generally accepted accounting principles (GAAP). Statement No. 76 is effective for periods beginning after June 15, 2015. There is no effect of this statement on the District's financial statements.

Governmental Accounting Standards Board Statement No. 79

In December of 2015, GASB issued Statement No. 79, *Certain External Investment Pools and Pool Participants*. This Statement establishes additional note disclosure requirements for qualifying external investment pools that measure all of their investments at amortized cost for financial reporting purposes and for governments that participate in those pools. Statement No. 79 is effective for periods beginning after June 15, 2015, except for certain provisions on portfolio quality, custodial credit risk, and shadow pricing. Those provisions are effective for reporting periods beginning after December 15, 2015.

T) Future Governmental Accounting Standards Board (GASB) Pronouncements

Governmental Accounting Standards Board Statement No. 74

In June of 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. This Statement will improve the usefulness of information about postemployment benefits other than pensions (other postemployment benefits or OPEB) included in the general purpose external financial reports of state and local governmental OPEB plans for making decisions and assessing accountability. This Statement replaces Statements No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*. Statement No. 74 is effective for periods beginning after June 15, 2016. The District has elected not to early implement GASB No. 74 and has not determined its effect on the District's financial statements.

Governmental Accounting Standards Board Statement No. 75

In June of 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. This Statement will improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures for OPEB plans. Statement No. 75 is effective for periods beginning after June 15, 2017. The District has elected not to early implement GASB No. 75 and has not determined its effect on the District's financial statements.

Governmental Accounting Standards Board Statement No. 77

In August of 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures*. This Statement improves financial reporting by helping users better understand how tax abatements affect a government's future ability to raise resources and meet its financial obligations and the impact those abatements have on a government's financial position and economic condition. Statement No. 77 is effective for periods beginning after December 15, 2015. The District has elected not to early implement GASB No. 77 and has not determined its effect on the District's financial statements.

Governmental Accounting Standards Board Statement No. 78

In December of 2015, GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. This Statement establishes requirements for the recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for multiple-employer defined benefit pension plans. Statement No. 78 is effective for periods beginning after December 15, 2015. The District has elected not to early implement GASB No. 78 and has not determined its effect on the District's financial statements.

Governmental Accounting Standards Board Statement No. 80

In January of 2016, GASB issued Statement No. 80, *Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14*. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. Statement No. 80 is effective for periods beginning after June 15, 2016. The District has elected not to early implement GASB No. 80 and has not determined its effect on the District's financial statements.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

T) Future Governmental Accounting Standards Board (GASB) Pronouncements - Continued

Governmental Accounting Standards Board Statement No. 81

In March of 2016, GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. This Statement improves financial reporting by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Statement No. 81 is effective for periods beginning after December 15, 2016. The District has elected not to early implement GASB No. 81 and has not determined its effect on the District's financial statements.

Governmental Accounting Standards Board Statement No. 82

In March of 2016, GASB issued Statement No. 82, *Pension Issues—an amendment of GASB Statements No. 67, No. 68, and No. 73*. This Statement addresses certain issues that have been raised with respect to Statements No. 67, Financial Reporting for Pension Plans, No. 68, Accounting and Financial Reporting for Pensions, and No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. Statement No. 81 is effective for periods beginning after June 15, 2016, except for the requirements of this Statement for the selection of assumptions in a circumstance in which an employer's pension liability is measured as of a date other than the employer's most recent fiscal year-end. In that circumstance, the requirements for the selection of assumptions are effective for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017. The District has elected not to early implement GASB No. 82 and has not determined its effect on the District's financial statements.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

2) CASH AND INVESTMENTS

Cash and investments totaled \$229,197,237 as of June 30, 2016. Each fund's portion of this total is reflected in the financial statement accounts entitled "Cash and Investments", "Cash and Cash Equivalents", "Restricted Cash", and "Cash and Investments with Fiscal Agents."

All District cash and investments are on deposit with the County Treasurer with the exception of imprest cash on hand, proceeds from debt issuances, and a portion of cash collected from special assessments. Proceeds from debt issuances are reported in the governmental funds and is on account with a third party. 100 percent of cash collected from special assessments is held by the District for others in trust and is on account with a third party. All cash held by a third party is classified as "Cash and Investments with Fiscal Agents" in the District's financial statements and amounted to \$1,062,649 at June 30, 2016.

The County Treasurer maintains the County's Pooled Investment Fund pursuant to the California Government Code and the County Treasurer's Statement of Investment Policy. Portfolio income, including gains and losses, are distributed quarterly. All investment income is distributed prorata based upon each participant's average daily cash balance for the calendar year except for specific investments in which the interest income is to be credited directly to the fund from which the investment was made.

Investments related to the County's Pooled Investment Fund are restricted to those authorized in the California Government Code and the County Treasurer's Statement of Investment Policy. Investments and related credit, custodial credit, concentration of credit, interest rate and foreign currency risks associated with the County's Pooled Investment Funds are disclosed in Riverside County's basic financial statements.

The primary objectives of the Treasurer's investment of public funds are noted in order of priority as follows: to safeguard investment principal, to maintain sufficient liquidity within the portfolio to meet daily cash flow requirements, and to achieve a reasonable rate of return or yield on the portfolio.

Total District cash and investments at fair value are reported as follows:

Cash and Investments:	
Cash With and Pooled by the County Treasury	\$ 233,160,716
Imprest Cash Held at the District	600
Investments Held by Fiscal Agents	1,062,649
Total Cash and Investments	\$ 234,223,965

Total District cash and investments at fair value are reported by the following activities:

Cash and Investments Summary:	
Total Governmental Activities	\$ 223,985,169
Total Business-type Activities	5,212,068
Total Fiduciary Funds	5,026,728
Total Cash and Investments	\$ 234,223,965

A) Investments

Investments are governed by the District's Investment Policy Statement, the California Government Code, the particular bond indenture, Board of Supervisors' Resolution, and the Fiscal Agent agreement.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

2) CASH AND INVESTMENTS - Continued

A) Investments - Continued

State statutes and the District's Investment Policy Statement authorize the District to invest in the following investment categories:

- ◆ Obligations of the U.S. Treasury Notes
- ◆ Federal agencies
- ◆ A U.S. Government-sponsored enterprise
- ◆ The State of California
- ◆ Local government agencies
- ◆ Commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record
- ◆ Bankers' acceptances
- ◆ Repurchase agreements
- ◆ Reverse repurchase agreements
- ◆ Guaranteed investment contracts
- ◆ Bond anticipation notes
- ◆ Corporate bonds
- ◆ Negotiable certificates of deposits issued by national and State licensed banks, chartered banks, or Federal/State savings and loan associations.

Investments Authorized by Debt Agreements. Investments of debt proceeds held by bond trustee (Fiscal Agent) are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the District's investment policy.

As of June 30, 2016, the major classes of the District's investments consisted of the following:

	Fair Value	Weighted Average Maturity (Years)
With Trustee (Fiscal Agent):		
Govt Obligation Fund	\$ 6	9.20
US Treasury Bond	893,746	Less than 1 year
US Bank Money Market	168,897	Less than 1 year
Total with Trustee (Fiscal Agent)	\$ 1,062,649	

B) Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates that will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

The County Treasurer manages exposure to declines in the market value of the Pooled Investment fund portfolio by maintaining a weighted average days to maturity (WAM) of less than 541 days or 1.5 years in accordance with the County Treasurer's Statement of Investment Policy. As of June 30, 2016, the WAM for the Pooled Investment fund portfolio was 1.15 years. Additionally, the County Treasurer maintains at least 40 percent of the portfolio's total value in securities having maturities of 1 year or less to provide sufficient liquidity to meet daily expenditure requirements. Investments held by Fiscal Agents have a maturity of 1 year or less.

As noted in the County Treasurer's Investment Fund Monthly Report for June 2016, the Pooled Investment fund was rated: Aaa-bf by Moody's Investor Service and AAA/V1 by Fitch Ratings.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

2) CASH AND INVESTMENTS - Continued

C) Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The California Government Code and the District's Investment Policy Statement do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments, other than the following provisions for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits.

D) Credit Risk

The District's Investment Policy Statement sets forth the minimum acceptable credit ratings for investments from the following nationally recognized statistical rating organizations. For an issuer of short-term debt, the rating must be no less than A-1 (Standard & Poor's) and P-1 (Moody's). For an issuer of long-term debt, the rating must be no less than an "A". At June 30, 2016, the credit rating of the District's investments pursuant to the District's Investment Policy Statement was AA- for Standard & Poor's and A2 for Moody's.

E) Concentration of Credit Risk

As previously stated, the District's Investment Policy Statement is limited solely to the proceeds of bonds issued by the District and therefore does not address limitations with regards to pool funds. At June 30, 2016, there were no investments that constitute a concentration of credit risk.

F) Fair Value Measurements

The District has the following recurring fair value measurements as of June 30, 2016:

Investments by Fair Value Level	2016	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Debt Securities				
Govt Obligation Fund	\$ 6	\$ -	\$ 6	\$ -
US Treasury Bond	893,746	893,746	-	-
US Bank Money Market	168,897	-	168,897	-
Total Debt Securities	\$ 1,062,649	\$ 893,746	\$ 168,903	\$ -

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

3) INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The amounts due to/from other funds as of June 30, 2016 are as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Zone 1	\$ 2,076
	Zone 2	1,893
	Zone 3	433
	Zone 4	4,504
	Zone 5	726
	Zone 6	780
	Zone 7	1,142
	NPDES Whitewater	40
	NPDES Santa Ana	666
	NPDES Santa Margarita	774
	Internal Service Funds	56,460
		\$ 69,494
	Zone 1	General Fund
		\$ 126,213
NPDES Whitewater	NPDES Santa Ana	\$ 53,454
		\$ 53,454
NPDES Santa Margarita	NPDES Santa Ana	\$ 248,386
		\$ 248,386
Nonmajor Enterprise Funds	Zone 4	\$ 1,712
		\$ 1,712
Internal Service Funds	General Fund	\$ 17,407
	Zone 1	24,557
	Zone 2	7,984
	Zone 3	4,847
	Zone 4	44,528
	Zone 5	2,866
	Zone 6	2,829
	Zone 7	12,432
	NPDES Whitewater	158
	NPDES Santa Ana	2,297
	NPDES Santa Margarita	2,749
	Subdivision Operations	2,612
	Nonmajor Enterprise Funds	313
	Internal Service Funds	6,799
		\$ 132,378
Total Due To/From Other Funds		\$ 631,637

These interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

4) INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS - Continued

Transfers

Transfers are indicative of funding for capital projects, lease payments or debt service, subsidies of various District operations and re-allocations of special revenues. The following schedule briefly summarizes the District's transfer activity (in thousands):

Transfer From	Transfer To	Amount	Purpose
Operating or Debt Subsidy:			
Zone 1	General Fund	\$ 79,625	Funded Leave Balance
Zone 2	General Fund	94,806	Funded Leave Balance
Zone 3	General Fund	24,972	Funded Leave Balance
Zone 4	General Fund	172,639	Funded Leave Balance
Zone 5	General Fund	23,429	Funded Leave Balance
Zone 6	General Fund	50,043	Funded Leave Balance
Zone 7	General Fund	36,929	Funded Leave Balance
NPDES Whitewater	General Fund	2,632	Funded Leave Balance
NPDES Santa Ana	General Fund	24,554	Funded Leave Balance
NPDES Santa Margarita	General Fund	17,932	Funded Leave Balance
			Transfer of Cash to Process Debt
Zone 4	Other Governmental Funds	1,010,397	Service Payment
General Fund	Internal Service Fund	143,410	Rate Adjustment
Zone 1	Internal Service Fund	26,550	Rate Adjustment
Zone 2	Internal Service Fund	13,946	Rate Adjustment
Zone 3	Internal Service Fund	9,813	Rate Adjustment
Zone 4	Internal Service Fund	44,329	Rate Adjustment
Zone 5	Internal Service Fund	2,647	Rate Adjustment
Zone 6	Internal Service Fund	21,390	Rate Adjustment
Zone 7	Internal Service Fund	6,314	Rate Adjustment
NPDES Whitewater	Internal Service Fund	797	Rate Adjustment
NPDES Santa Ana	Internal Service Fund	7,263	Rate Adjustment
NPDES Santa Margarita	Internal Service Fund	11,250	Rate Adjustment
Subdivision Operations	Internal Service Fund	20,156	Rate Adjustment
Nonmajor Enterprise Funds	Internal Service Fund	1,140	Rate Adjustment
Internal Service Fund	Internal Service Fund	5,995	Rate Adjustment
Total Transfers		<u>\$ 1,852,958</u>	

The internal balances on the government-wide statement of net position are created by the allocation of internal service fund activity to business-type activities.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

5) CAPITAL ASSETS - Continued

Depreciation expense was charged to governmental functions as follows:

General Government	\$ 343,905
Public Ways and Facilities	9,863,875
Depreciation on capital assets held by the District's internal service funds is charged to the various functions based on their usage of the assets.	810,227
Total Depreciation Expense - Governmental Functions	\$ 11,018,007

Depreciation expense was charged to the business-type functions as follows:

Other Enterprise Funds	\$ 2,577
Total Depreciation Expense - Business-type Functions	\$ 2,577

Replacement of Capital Assets

In accordance with District rate methodology, a balance of resources has been accumulated in the proprietary fund financial statements for the replacement of District capital assets. As of June 30, 2016, the balance of resources amounted to \$2,000 and is reflected in Unrestricted Net Position.

6) LONG-TERM OBLIGATIONS

The following is a summary of long-term liability transactions for the year ended June 30, 2016:

	Beginning Balance	Additions	Retirements	Ending Balance	Amounts Due Within One Year
<u>Governmental activities:</u>					
Compensated Absences	\$ 4,314,572	\$ 864,670	\$ (735,990)	\$ 4,443,252	\$ 581,150
Promissory Note	21,000,000	-	(350,000)	20,650,000	1,920,000
Promissory Note Premium	2,423,284	-	(242,328)	2,180,956	-
Net Pension Liabilities	34,825,105	15,420,252	(9,368,259)	40,877,098	-
Total Governmental Activities - Long-term Liabilities	\$62,562,961	\$16,284,922	\$(10,696,577)	\$68,151,306	\$ 2,501,150
<u>Business-type activities:</u>					
Compensated Absences	\$ 90,622	\$ 14,656	-	\$ 105,278	\$ 13,770
Net Pension Liabilities	1,186,092	522,763	(317,594)	1,391,261	-
Total Business-type Activities - Long-term Liabilities	\$ 1,276,714	\$ 219,825	\$ (317,594)	\$ 1,496,539	\$ 13,770

For the governmental activities, compensated absences are generally liquidated by the general fund.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

6) LONG-TERM OBLIGATIONS - Continued

Promissory Note

On June 25, 2015, the District issued the Zone 4 2015 Negotiable Promissory Notes to fund certain flood control facilities located in Zone 4 of the District, including but not limited to construction of the Romoland MDP Lina A, Stage 4 for Zone 4 and certain expenses incidental thereto. The principal of, premium, and interest on the Notes are payable from the revenues and taxes of Zone 4 (“Zone 4 Revenues”). The Notes are further secured by a first lien and specific pledge of the Zone 4 Revenues as the Zone 4 Revenues are received, except that any Zone 4 Revenues not needed for debt services on the Notes in any fiscal year will be available to the District for any lawful purpose.

The Notes are not subject to optional redemption prior to maturity.

The Promissory Notes were issued in aggregate principal amount of \$21,000,000 plus an original issue premium \$2,423,284. The Notes are to be repaid at an interest rate between 2.0% and 5.0%. As of June 30, 2016, the outstanding notes payable totaled \$20,650,000 and the unamortized premium amounted to \$2,180,956.

The annual debt service repayment schedule for the Zone 4 2015 Negotiable Promissory Notes as of June 30, 2016 is as follows:

Fiscal Year (June 30)	Principal	Interest	Total
2017	\$ 1,920,000	\$ 935,500	\$ 2,855,500
2018	1,980,000	867,100	2,847,100
2019	2,060,000	776,000	2,836,000
2020	2,160,000	670,500	2,830,500
2021	2,270,000	559,750	2,829,750
2022 - 2025	10,260,000	1,022,250	11,282,250
Total	<u>\$ 20,650,000</u>	<u>\$ 5,274,600</u>	<u>\$ 25,481,100</u>

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

7) SPECIAL ASSESSMENT BONDS

Debt without Government Obligation

The District issued the Elsinore Valley Benefit District (Zone 3) bond for the construction of flood control facilities in Zone 3 of the Special Revenue Funds. The bond is to be repaid through special assessment revenues and is not considered an obligation of the District, as the District's duties are limited to acting as an agent for the assessed property owners and the bondholders. Accordingly, this bond is not reflected in the accompanying financial statements.

In accordance with bond covenants, the District has established a reserve from bond proceeds for potential delinquencies in the amount of a minimum of 8.0 percent to 10.0 percent of the principal amount, which is reported as due to bondholders in the agency funds. If a delinquency occurs in the payment of any assessment installment, the District has the duty to transfer the amount of such delinquent installment from the Reserve Fund into the Redemption Fund.

The enactment of Article XIII A of the California Constitution and subsequent legislative enactments effectively repealed the otherwise mandatory duty on the part of the District, under the Bond Law, to levy and collect a special tax (in an amount necessary to meet delinquencies, but not to exceed \$0.10 on each \$100 of assessed value of all taxable property within the County in any one year) if surplus funds are not available to cover delinquencies.

At June 30, 2016, the reserve balance for the bond in the Zone 3 Elsinore Valley Benefit District was included in the agency fund cash and investments or cash with fiscal agent balances, and amounted to \$1,062,647. The District's liability to advance funds for bond redemption in the event of delinquent assessment installments is limited to the reserves established.

Special assessment debt without District obligation consists of the following:

1993 Zone 3 - Limited Obligation Improvement Bonds, bearing interest of 7.9 percent, due in annual installments of \$105,000 to \$475,000 plus interest, through September 1, 2017.	<u>\$ 915,000</u>
Total special assessment bonds without governmental obligation:	<u>\$ 915,000</u>

8) SELF-INSURANCE PROGRAM

The District participates in the County's self-insurance program. The County is self-insured for public liability, property damage, long-term and short-term disability, medical malpractice, unemployment and workers' compensation. The County records estimated liabilities for such claims filed or estimated to be filed for incidents that have occurred. The County supplements its self-insurance for long-term disability and workers' compensation with insurance policies. The insurance carrier pays all long-term disability payments exceeding the first two years of coverage.

The maximum coverage under the workers' compensation policy is \$500,000 per claim, and there is no deductible. The County allocates an annual premium to the District based on current payroll costs and an experience modification. The annual premium to the District in fiscal year 2016 was \$406,593.

In the past three fiscal years, the District has not experienced settlements or judgements that exceeded the self-insured coverage.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

9) RETIREMENT PLAN

A) Plan Description

The District contributes to the California Public Employees Retirement System (CalPERS), an agent multiple-employer public employee defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. State statutes within the Public Employees' Retirement Law establish a menu of benefit provisions as well as other requirements. The District selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through local ordinance. CalPERS issues a separate comprehensive annual financial report. However, a report for the District's plan within CalPERS is not available.

Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office - 400P Street, Sacramento, CA 95814 or an electronic version may be obtained at CalPERS' website under Forms and Publications.

B) Benefits Provided

CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. At service retirement, a monthly allowance equal to the product of the benefit factor, years of service, and final compensation is paid to the retiree in the form of an annuity. A classic CalPERS member, an employee hired prior to January 1, 2013 becomes eligible for service retirement upon attainment of age 50 with at least 5 years of credited service with a benefit formula of 3% at 60. A classic CalPERS member, hired on or after August 23, 2012 has a modified retirement formula of 2% at 60. A PEPRA member, an employee hired after January 1, 2013, will be eligible for service retirement at age 55 with at least 5 years of service with a benefit formula of 2% at 62.

C) Contribution Description

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. For the fiscal year ended June 30, 2016 the average active employee contribution rate is 8 percent of annual covered salary and the District's contribution rate is 20.059 percent of annual payroll. The District's contributions to CalPERS of \$3,441,851 for the fiscal year ended June 30, 2016 were equal to the District's required contributions.

D) Net Pension Liability

The District's net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2014 with a roll-forward adjustment to June 30, 2015.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

9) RETIREMENT PLAN - Continued

E) Actuarial Assumptions

For the measurement period ended June 30, 2015 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2014 total pension liability. The June 30, 2014 and June 30, 2015 total pension liabilities were based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry age normal
Actuarial Assumptions	
Discount Rate	7.65%
Inflation	2.75%
Salary Increases	Varies by Entry Age and Service
Investment Rate of Return	7.65% Net of Pension Plan Investment Expenses, includes Inflation
Payroll Growth	3.00%
Mortality Rates	Derived using CalPERS' membership data for all funds
Post Retirement Benefit Increase	Contract COLA up to 2.75% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.75% thereafter

All other actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period from 1997 to 2011, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website under Forms and Publications.

Initial unfunded liabilities are amortized over a closed period that depends on the plan's date of entry into CalPERS. Subsequent plan amendments are amortized as a level percent of pay over a closed 20-year period. Gains and losses that occur in the operation of the plan are amortized over a 30 year rolling period, which results in an amortization of about 6.0 percent of unamortized gains and losses each year. If the plan's accrued liability exceeds the actuarial value of plan assets, then the amortization payment on the total unfunded liability may not be lower than the payment calculated over a 30 year amortization period.

F) Discount Rate

The discount rate used to measure the total pension liability was 7.65 percent. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.65 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long-term expected discount rate of 7.65 percent is applied to all plans in the Public Employees Retirement Fund. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained at CalPERS' website under the GASB 68 section.

According to Paragraph 30 of Statement 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. The discount rate of 7.50 percent used for the June 30, 2014 measurement date was net of administrative expenses. The discount rate of 7.65 percent used for the June 30, 2015 measurement date is without reduction of pension plan administrative expense.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

9) RETIREMENT PLAN - Continued

F) Discount Rate - Continued

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. The target allocation shown was adopted by the Board effective on July 1, 2014.

Asset Class	New Strategic Allocation	Real Return Years 1-10	Real Return Years 11+
Global Equity	51.0%	5.25%	5.71%
Global Fixed Income	19.0	0.99	2.43
Inflation Sensitive	6.0	0.45	3.36
Private Equity	10.0	6.83	6.95
Real Estate	10.0	4.50	5.13
Infrastructure and Forestland	2.0	4.50	5.09
Liquidity	2.0	(0.55)	(1.05)

G) Net Pension Liability

Changes in the Net Pension Liability

	Increase (Decrease)		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability/(Asset)
<u>Balance at Valuation Date of 7/1/2015:</u>	\$ 154,394,946	\$ 118,383,749	\$ 36,011,197
<i>Changes During the Measurement Period:</i>			
Service Cost	2,605,929	-	2,605,929
Interest on the Total Pension Liability	11,562,462	-	11,562,462
Differences between Expected and Actual Experience	1,641,380	-	1,641,380
Changes of Assumptions	(2,831,312)	-	(2,831,312)
Contributions from the Employer	-	2,917,761	(2,917,761)
Contributions from the Employee	-	1,276,885	(1,276,885)
Net Investment Income	-	2,659,895	(2,659,895)
Benefit Payments, including Refunds of Employee Contributions	(6,729,370)	(6,729,370)	-
Administrative Expense	-	(133,244)	133,244
Net Changes	<u>\$ 6,249,089</u>	<u>\$ (8,073)</u>	<u>\$ 6,257,162</u>
<u>Balance at Measurement Date of 6/30/2015:</u>	<u>\$ 160,644,035</u>	<u>\$ 118,383,749</u>	<u>\$ 42,268,359</u>

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

9) RETIREMENT PLAN - Continued

G) Net Pension Liability - Continued

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 7.65 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.65 percent) or 1 percent-point higher (8.65 percent) than the current rate:

	Discount Rate – 1% (6.65 %)	Discount Rate (7.65 %)	Discount Rate + 1% (8.65 %)
Plan's Net Pension Liability/ (Asset)	\$ 63,777,558	\$ 42,268,359	\$ 24,465,715

H) Pension Plan Fiduciary Net Position

Detailed information about the CalPERS pension plan Fiduciary Net Position is available in a separately issued financial report. That report may be obtained at CalPERS' website under Forms and Publications.

I) Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2016, the District recognized pension expense of 3,026,277. At June 30, 2016, the District reported deferred inflows of resources of related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension Contributions Subsequent to Measurement Date	\$ 3,441,851	\$ -
Differences between Expected and Actual Experience	1,209,438	-
Changes of Assumptions	-	(2,086,230)
Net Difference between Projected and Actual Earnings on Pension Plan Investments	5,009,028	(6,049,232)
Total	\$ 9,660,317	\$ (\$8,135,462)

\$3,441,851 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ending June 30, 2017. Other amounts reported as deferred outflows and inflows of resources related to pension will be recognized in future pension expense as follows:

Measurement Period Ended June 30:	Deferred Outflows/(Inflows) of Resources
2016	(1,077,293)
2017	(1,077,293)
2018	(1,014,667)
2019	1,252,257
2020	-
Thereafter	-
	\$ (1,916,996)

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

9) RETIREMENT PLAN - Continued

J) Recognition of Gains and Losses

Under GASB 68, gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense.

The amortization period differs depending on the source of the gain or loss:

Difference between projected and actual earnings	5 year straight-line amortization
All other amounts	Straight-line amortization over the average expected remaining service lives of all members that are provided with benefits (active, inactive and retired) as of the beginning of the measurement period

The expected average remaining service lifetime (EARSL) is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired).

The EARSL for the Plan for the 2014-15 measurement period is 3.8 years, which was obtained by dividing the total service years of 2,132 (the sum of remaining service lifetimes of the active employees) by 563 (the total number of participant: active, inactive, and retired).

10) POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description

The District participates in the County's program that provides retiree medical benefits for eligible retirees enrolled in County-sponsored and administered retiree medical plans. Benefit provisions are established and amended through negotiations between the County and the respective unions. All employees who retire from active employment after age 50 with 5 years of District service (and are immediately eligible for CalPERS pension benefits) are eligible to participate. Former employees eligible for CalPERS pension benefits but who are not eligible for retirement at termination of employment are not eligible for retiree health benefits. As of June 30, 2016, 92 District employees meet the age eligibility requirements, 85 of which will be covered upon retirement while the remaining 7 will qualify upon reaching 5 years of service. Another 82 employees have sufficient time in service to qualify for these benefits upon retirement after age 50.

The District provides retirees access to the same medical coverage as active participants. Prior to age 65, the retiree premiums are the same as active premiums and are developed by blending active and retiree costs. This benefit ceased on January 1, 2011. Currently, all retirees are required to pay "retiree only" (i.e. unblended) premium rates. Participants who retired prior to January 1, 2009 were eligible for this benefit. After age 65, retiree premiums are based exclusively on retiree costs.

The District has established a qualified Internal Revenue Code Section 115 trust with the California Employers' Retiree Trust (CERBT) to administer the assets of retiree medical plan benefits for District employees. The CERBT issues a publicly available financial report that includes financial statements and required supplementary information related to the established trust. The report may be obtained from CalPERS Employer Services Division, P.O. Box 942709, Sacramento, CA 94229-2709.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

10) POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS - Continued

Funding Policy

The District contributes a portion of an eligible retiree’s medical plan premium under a County sponsored health plan (either at retirement or during a subsequent annual enrollment) for the retiree’s lifetime. The current monthly amount paid by the District ranges from \$25.00 - \$256.00, depending on the retiree’s bargaining unit at retirement. These amounts do not increase in future years to account for inflation.

Dental and vision benefits offered to the District retirees are not considered to vary by age or demographics. Therefore, because a retiree must pay the entire premium amount to receive dental and vision benefits, there is no liability to the District for providing these benefits.

In June 2004, the Government Accounting Standards Board (GASB) issued GASB Statement 45 (GASB 45). GASB 45 addresses accounting and financial reporting for post-employment benefits other than pensions, referred to as OPEB, and requires the District to report OPEB costs on an actuarial basis to account for the future costs of promised benefits. The District’s annual OPEB cost is calculated based on the Annual Required Contribution (ARC) of the employer, an amount actuarially determined in accordance with GASB 45. GASB requires the ARC to be developed each year based on the plan’s assets and liabilities. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. Although GASB does not actually require prefunding, the portion of the ARC that is not funded each year would accumulate as a liability on the District’s financial statements. Therefore, the District has contributed amounts in excess of the ARC resulting in a net OPEB asset for 2015-16.

The District’s annual OPEB cost, net OPEB obligation (asset) and the related information for fiscal year ending 2016 were as follows:

Annual Required Contribution	\$	-
Interest on Net Pension Obligation (Asset)		(38,752)
Adjustments to Annual Required Contribution		<u>32,472</u>
Annual OPEB Cost		(6,280)
Contributions Made		(22,000)
Additional Contribution		<u>(21,900)</u>
Increase (Decrease) in Net Pension Obligation (Asset)		(50,180)
Net OPEB Obligation (Asset) Beginning of Year		<u>(633,204)</u>
Net OPEB Obligation (Asset) End of Year	\$	<u><u>(683,384)</u></u>

The District’s annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2016 were as follows:

Three-Year Trend Information

Fiscal Year Ended	Annual OPEB Cost	Percentage of OPEB Cost Contributed	Net OPEB Asset (NOA)
June 30, 2014	\$ 10,000	720%	\$ (602,100)
June 30, 2015	\$ (6,000)	783%	\$ (655,104)
June 30, 2016	\$ (6,000)	367%	\$ (683,384)

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

10) POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS - Continued

Funded Status and Funding Progress

The funded status of the plan as of July 1, 2015 was as follows:

	2015
Actuarial Accrued Liability (a)	\$ 395,000
Actuarial Value on Plan Assets (b)	556,000
Unfunded Actuarial Accrued Liability (Funding Excess) (a) - (b)	(161,000)
Funded Ratio (b) / (a)	140.8%
Covered Payroll (c)	\$ 17,194,000
Unfunded Actuarial Accrued Liability (Funding Excess) as a Percentage of Covered Payroll [(a) - (b)] / (c)	(0.94)%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The required schedule of funding progress presented as required supplementary information provides multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the District and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Healthcare trend rate assumptions are not applicable as they are not included in the actuarial calculations for liabilities and ARC in the actuarial report as the District's contributions are assumed to remain at their current level. Significant methods and assumptions were as follows:

Actuarial Valuation Date	07/01/2015
Actuarial Cost Method	Entry Age Normal Cost
Amortization Method	Level Percentage of Future Payroll, Open
Remaining Amortization Period	30 years
Asset Valuation Method	15-year Smoothed Market
Actuarial Assumptions:	
Investment Rate of Return	6.12%
Projected Salary Increases	3.00%
Inflation Rate	2.75%

11) CONTINGENCIES AND COMMITMENTS

Lawsuits and Other Claims

The District is named in various legal actions. Management believes that the ultimate resolution of these actions will not have a significant effect on the District's financial position, results or operations. The estimated amount of remaining construction contract obligations at year-end is \$8,879,104.

Riverside County Flood Control and Water Conservation District
Notes to the Financial Statements
For the Year Ended June 30, 2016

12) UNRESTRICTED NET POSITION DEFICIT

Due to the implementation of GASB 68, *Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27*, requiring the reporting of the District’s unfunded pension liability, the government-wide financial statements reported a deficit unrestricted net position of \$33,359,909 for the year ended June 30, 2016.

Contributions as a Percentage of Covered-Employee Payroll	20.16%	17.98%	18.15%

¹ Last ten years of data is not available. The District implemented GASB 68 in fiscal year 2014-2015 using a measurement period of 2013-2014.

² The discount rate was changed from 7.5 percent (net of administrative expense) to 7.65 percent.

³ Net of administrative expenses in 2014.

⁴ Payroll presented is based on total reportable earnings for the covered group.

Riverside County Flood Control and Water Conservation District
Schedule of Required Supplementary Information
For the Year Ended June 30, 2016

A summary of principal assumptions and method used to determine the Fiscal Year 2015 -16 ARC is shown below.

Actuarial Valuation Date	June 30, 2013
Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll
Remaining Amortization Period	25 Years as of the Valuation Date
Asset Valuation Method	15 Year Smoothed Market
Actuarial Assumptions:	
Discount Rate	7.50%
Projected Salary Increases	3.30% to 14.20% depending on Age, Service, and type of employment
Inflation Rate	2.75%
Payroll Growth	3.00%
Individual Salary Growth	A merit scale varying by duration of employment coupled with an assumed annual inflation growth of 2.75% and an annual production growth of 0.25%.

Schedule of Funding Progress
Other Postemployment Benefits – OPEB

The table below shows a three-year analysis of the actuarial value of assets as a percentage of the actuarial accrued liability and the unfunded actuarial liability as a percentage of annual covered payrolls as of June 30:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) Entry Age (b)	Unfunded (Assets in Excess of) AAL (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	Unfunded (Assets in Excess of) AAL as a Percentage of Covered Payroll (b-a)/c
July 1, 2013	\$407,000	\$546,000	\$139,000	74.5%	\$15,688,000	0.9%
July 1, 2014	\$532,000	\$479,000	\$(53,000)	111.1%	\$16,297,000	(0.3%)
July 1, 2015	\$556,000	\$395,000	\$(161,000)	140.8%	\$17,194,000	(0.94%)

(Amounts Expressed in Thousands)

BUDGETARY COMPARISON SCHEDULES

In accordance with the provisions of the State of California, County Budget Act, Government Code Sections 29000-29144 and Section 30200, the District prepares and adopts a budget under the supervision and control of the Riverside County, Board of Supervisors (the Board) on or before August 30 for each fiscal year. Budgets are adopted for the General fund and Special Revenue funds and are prepared on the modified accrual basis of accounting in conformity with generally accepted accounting principles.

As adopted by the Board, the District controls expenditures at the class or appropriation level within each category presented on the financial statements as follows:

- General Government
- Public Ways and Facilities
- Capital outlay
- Debt service payments for principal and interest
- Transfers

Encumbrances are commitments related to contracts executed for goods or services. Encumbrances are recorded for budgetary control and accountability purposes in the General and Special Revenue funds. Any outstanding encumbrances at year-end represent the estimated amount of expenditures that may result if the contracts in progress at year-end are completed. If the District has recorded these outstanding contracts in the next fiscal year's budget then encumbrances are not recorded. The unencumbered balances (appropriations less expenditures and encumbrances) lapse at year-end.

Any deficiency of budgeted revenues and other financing sources compared to expenditures and other financing uses is financed by beginning available fund balances as provided for in the State of California, County Budget Act.

**Riverside County Flood Control and Water Conservation District
General Fund**

The *General Fund* is available for any authorized purpose and is used to account for all financial resources except for those accounted for in other funds.

Riverside County Flood Control and Water Conservation District Special Revenue Funds

Zone 1: This special revenue fund represents District Zone 1. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.

Zone 2: This special revenue fund represents District Zone 2. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.

Zone 3: This special revenue fund represents District Zone 3. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.

Zone 4: This special revenue fund represents District Zone 4. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.

Zone 5: This special revenue fund represents District Zone 5. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.

Zone 6: This special revenue fund represents District Zone 6. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.

Zone 7: This special revenue fund represents District Zone 7. This fund was established to account for revenues and expenditures related to providing flood control in this geographical zone. Ad valorem property taxes, developer fees, local cooperative agreements and Federal monies primarily finance this fund.

NPDES – Whitewater: This special revenue fund was established to account for revenue and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Whitewater assessment area. A benefit assessment area primarily finances this fund.

NPDES – Santa Ana: This special revenue fund was established to account for revenue and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Santa Ana assessment area. A benefit assessment area primarily finances this fund.

NPDES – Santa Margarita: This special revenue fund was established to account for revenue and expenditures related to the National Pollutant Discharge Elimination System (NPDES) in the Santa Margarita assessment area. A benefit assessment area primarily finances this fund.

Riverside County Flood Control and Water Conservation District Other Governmental Funds

Other Governmental Funds reported in the Fund Financial Statements is made up of the Flood Control Capital Project Fund and the Zone 4 Debt Service Fund:

The *Flood Control Capital Project Fund* was established to account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed by proprietary funds types.

The *Zone 4 Debt Service fund* was established to service the debt incurred by Zone 4 for the construction of Zone 4 flood control facilities. The fund receives transfers from Zone 4 revenues to pay principal and interest on promissory notes.

Riverside County Flood Control and Water Conservation District
Non-Major Enterprise Funds

Photogrammetry Operations Fund: This fund was established to account for revenues and expenses related to surveying and mapping services performed within the County of Riverside by the Photogrammetry section. Surveying and mapping services are provided to other governmental agencies, private enterprises and individuals.

Encroachment Permits Fund: This fund was established to account for revenue and expenses related to encroachment permit services performed by the Encroachment Permit section. These services are provided to other governmental agencies, developers and individuals. Governmental agencies, developers and individuals must obtain an encroachment permit from the District to gain temporary access to flood control facilities for purposes of completing other construction projects not sponsored by the District.

Riverside County Flood Control and Water Conservation District Internal Service Funds

Hydrology Services Fund: This fund was established to account for revenues and expenses related to hydrological information services performed by the Hydrology section. These services are provided to support zone projects and are charged to the special revenue funds on a cost reimbursement basis.

Garage Fund: This fund was established to account for revenue and expenses related to the operation and maintenance of the District's vehicles. Garage services are provided to support the fleet of vehicles and heavy equipment needed to maintain flood control facilities. These services are charged to all District funds on a cost reimbursement basis.

Project Maintenance Fund: This fund was established to account for revenues and expenses related to the maintenance of the District's flood control facilities. Project maintenance services include weed abatement, repair and preventative maintenance of flood control facilities. These services are charged to the special revenue funds on a cost reimbursement basis.

Mapping Services Fund: This fund was established to account for revenues and expenses related to mapping services performed by the Mapping section. These services are provided to support zone projects and are charged to the special revenue funds of the District.

Data Processing Fund: This fund was established to account for revenues and expenses related to data processing services performed by the Information Technology section. Data processing services include software system support for the computer network, data structure design and organization of the District computer systems. These services are charged to all District funds on a cost reimbursement basis.

Riverside County Flood Control and Water Conservation District Agency Funds

Flood Stop Notices Fund: This fund was established to account for “stop notice” payment funds withheld from vendors under contract (primary contractor) with the District to construct flood control facilities. The primary contractor retains sub-contractors to provide services and materials to complete a construction project. A sub-contractor will file “stop notices” against a primary contractor when a primary contractor fails to make payment on an invoice. The District holds payment to the primary contractor until such a time when the primary contractor makes payment on outstanding invoices to the sub-contractor.

Special Subdivision Fund: This fund was established to account for funds placed on deposit by developers to ensure developer constructed flood control facilities are constructed in accordance with the conditions set forth by the District. The funds are released to the developer once the flood control facility has been inspected, approved and accepted into the District maintenance system pursuant to the terms of a Board of Supervisors executed agreement between the developer and the District.

Special assessment/improvement districts with debt without government obligation:

Elsinore Valley Assessment District – Zone 3: The bonds issued are for the purpose of providing funds for certain public improvements to a benefit assessment area of approximately 52 square miles within Zone 3. The phased improvements include the acquisition of real property and construction of certain storm and flood control facilities, together, with appurtenances and rights of way.

Source: Assessor Annual Report - County of Riverside. Assessed Valuations are reported for all of Riverside County.

Notes: Property in the county is reassessed annually. The county assesses property at 100 percent of actual value, subject to the limitations of Prop 13, for all types of real and personal property.

Estimated actual value is calculated by dividing assessed value by those percentages. Tax rates are per \$1,000 of assessed value.

¹ Includes tax exempt property
