2.0 PURPOSE/BACKGROUND

Riverside County Flood Control and Water Conservation District (District) is responsible for the daily maintenance and emergency repair of its flood control facilities consisting of over 680 miles of flood control channels, basins, storm drains, dams, and levees along with nearly 62 dams and detention basins. The District's Operations and Maintenance Division will often utilize heavy equipment to complete day-to-day maintenance tasks including rehabilitation or restoration on its facilities to ensure unobstructed flow of water in the event of heavy rains or flooding and/or respond to emergency situations that require immediate repair of a flood control facility within the District's boundaries.

The District is seeking quotes from interested and qualified firms to supply a full line of Rental Equipment (hereafter referred to as Products and Services). Equipment includes, but is not limited to, Construction Equipment (heavy and light), Aerial Lift and Scaffold, Earth Moving, Electrical, Material Handling, etc. The intent of this contract is to secure equipment rental on an on-call basis to perform a variety of tasks, including but not limited to construction, support, restoration, maintenance, and occasional reconstruction of projects. Bidder's shall provide a cost for the list of frequently rented equipment and include the equipment make and model that corresponds with Attachment A, "Cost Sheet", Column C 'Suitable Make and Model.'

The intent of this solicitation is to establish multiple year agreements with multiple awarded Vendors to provide the District with equipment rental services as the need arises. The initial contract results in a basic ordering agreement under which future orders may be placed. A purchase order will be issued under this basic ordering agreement becoming a binding contract. However, the District shall not be obligated to order all of its equipment rental requirements from any one vendor under this RFP or any one purchase order. No minimum guaranteed amount or quantity is provided.

All equipment shall be rented on an un-operated equipment basis.

- All equipment provided shall be in good mechanical and operating condition and shall be operated by District personnel that have been trained on for heavy equipment operation.
- The maximum age for backhoes, motor graders, front-end loaders, excavators, and crawler tractors shall be 10 calendar years (that is, year of manufacture shall be no earlier than 2003).

2.1 **PRICING:** Include equipment costs for a daily, weekly and monthly (28-day) basis; refer to Exhibit A - Cost Proposal.

To continue to drive competition, the District will accept new or revised bids by the 15th of June and December of the remaining contract years that the RFQ is in place (2013/2014, 2014/2015, and 2015/2016). There will be no formal announcement, posting, or reminder placed on the County or District website.

2.2 **DELIVERY AND OTHER ADDED FEES:** Equipment may be picked up at a location branch or requested to be delivered directly to the project site. Include delivery, setup and pick up fees, where required, and clearly identified in your proposal. Other fees (environmental recovery fees, cleaning, refueling fees, etc.) shall be separate items and clearly identified in the proposal response. The District is self-insured and will not be responsible to pay for insurance fees. A certificate of insurance will be issued to each qualified vendor upon close and approval of the RFQ.

2.2.1 **Delivery and Performance Time:** Start work dates and work completion dates shall be determined at the time Purchase Orders are placed and will be listed in the appropriate locations on the Purchase Order.

2.2.2 **Days and Hours of Work:** Unless otherwise mutually agreed, all work shall be performed between 6:00 AM to 4:30 PM, Monday through Thursday, excluding holidays.

2.2.3 **Location of Project Work:** Actual location of ordered work will be stated on each Purchase Order placed.

2.3 **SERVICE LEVEL EXPECTATIONS:** Any equipment rented shall be guaranteed to be fully functional and capable of performing the task(s) it was designed to perform under the manufacturer's guidelines. All safety equipment/attachments shall be in place and functioning per the manufacturer's design. Any equipment not functioning properly (or becoming non-functional) will be picked up and replaced by the Vendor at no additional charge to the District during the rental period. Routine repairs (not caused by misuse of the equipment) shall be provided at no additional cost to the District.

At the time the District takes possession of the equipment, the Vendor shall provide information regarding current condition and any visual, pre-existing damage to the equipment. The Vendor and the District will review the equipment condition at the point of delivery as well as the point of return. Should a piece of equipment fail after the District's initial inspection, this would constitute an "occurrence" under the OPTIONAL CLAUSE listed in Section 3.5. No rental fees may be charged to the District without a signed receipt of acceptance of the equipment.

The proposal response shall also include any service agreement or contract that the District will be required to sign should your firm be awarded a contract. The service agreement shall clearly indicate and describe any and all "point of contact" charges that will be assessed at time of rental. Documents produced for signature after an award (or purchase order) is made, which were not submitted with the proposal response, will not be considered or made part of any contract that results from this RFP.

At the time of any rental of equipment under the terms of the resulting agreement, the District representatives may sign the Vendor's standard Rental Agreement/Delivery Ticket as evidence of receipt of the equipment. The District representatives accepting equipment will not be authorized to obligate the District for rental equipment required beyond the dates of services noted on the authorized purchase order; therefore, signature on a Rental Agreement/Delivery Packing Slip is merely an acknowledgement of receipt of the equipment. Only the buyer who issued the purchase order for that specific rental can add or modify an order.

2.5 **OPTIONAL CLAUSE:** The District will only accept a maximum of two (2) occurrences of equipment failure per Vendor per calendar year. After two (2) occurrences of equipment failure, Vendors will be put on suspension until the following fiscal year. Should an awarded Vendor have two (2) years (does not have to be consecutive) of equipment failure, they will be permanently removed from the awarded Vendor short list resulting from this RFQ until it expires in June 2016.

LOCAL PREFERENCE**

Local Business Qualification Affidavit

The County of Riverside Local Business Preference may be applied to this Request for Proposal/Quotation. If you qualify for this preference, please submit this form along with your response to this RFP/Q.

Definition of Local Business

A local business shall mean business firms with fixed offices located within the geographical boundaries of Riverside County, authorized to perform business within the County, and in doing so, credit all sales tax from sales generated within Riverside County to the County, and who provide product or perform contracted work using employees, of whom the majority are physically located in said local offices.

Local businesses" shall have a Riverside County business street address. Post office box numbers, residential addresses, or un-staffed sales offices shall not suffice to establish status as a "local business." To qualify as a "local business" the location must be open and staffed during normal business hours and the business must establish proof that it has been located and doing business in Riverside County for at least (6) six months preceding its certification to the County as a local business.

Additional supporting documentation that may be requested by the District to verify qualification includes:

1. **A copy of their current BOE 531-A and/or BOE 530-C form** (State, Local & District Sales, and Use Tax Return Form). This is what businesses submit to the State Board of Equalization when paying the sales tax to the State of California indicating the amount of the payment to be credited to each jurisdiction (i.e. Counties, Cities).
2. **A current business license** if required for the political jurisdiction the business is located.
3. **Proof of the current business address.** The local business needs to be operating from a functional office that is staffed with the company's employees, during normal business hours.
