1.0 EXECUTIVE SUMMARY

This Stormwater Management Plan (SWMP) describes the specific urban runoff management programs and activities that will be implemented to comply with the requirements of the municipal separate storm sewer system (MS4) Permit issued to the Riverside County Permittees by the San Diego Regional Water Quality Control Board (Regional Board) in 2004. This is the third MS4 permit issued by the Regional Board and is referred to as the “Third-term” MS4 Permit. This SWMP addresses the items listed in Attachment D to the Third-term MS4 Permit, providing a description of the programs and activities that the City of Murrieta is implementing or plans to implement to comply with the Third-term MS4 Permit and to reduce pollutants in Urban Runoff to the Maximum Extent Practicable (MEP).

In general, this SWMP provides additional detail regarding implementation of the programs described in the Riverside County Drainage Area Management Plan (DAMP). The Riverside County DAMP describes the overall Urban Runoff management strategies being implemented, or planned to be implemented, by the Permittees in the Santa Ana and Santa Margarita Regions of Riverside County during the 5-year terms of the Third-term MS4 Permit. The Riverside County DAMP has been prepared to meet the complex Urban Runoff management needs in the Santa Ana and Santa Margarita Regions consistent with the Third-term MS4 Permits. The Riverside County DAMP reflects the needs and constraints of the Permittees, while meeting the requirements of the Third-term MS4 Permits. The terms and acronyms used in this SWMP are defined in the glossary included in the Riverside County DAMP.

For purposes of this SWMP, the terms “Watershed Storm Water Management Plan (Watershed SWMP)” and “Standard Urban Stormwater Management Plan (SUSMP)” referenced in the Santa Margarita Region Permit are referred to as the “DAMP” and “Water Quality Management Plan (WQMP),” respectively to be consistent with terminology established and in use by the Permittees.

2.0 INTRODUCTION TO THE CITY OF MURRIETA STORMWATER MANAGEMENT PLAN

2.1 PROGRAM OVERVIEW

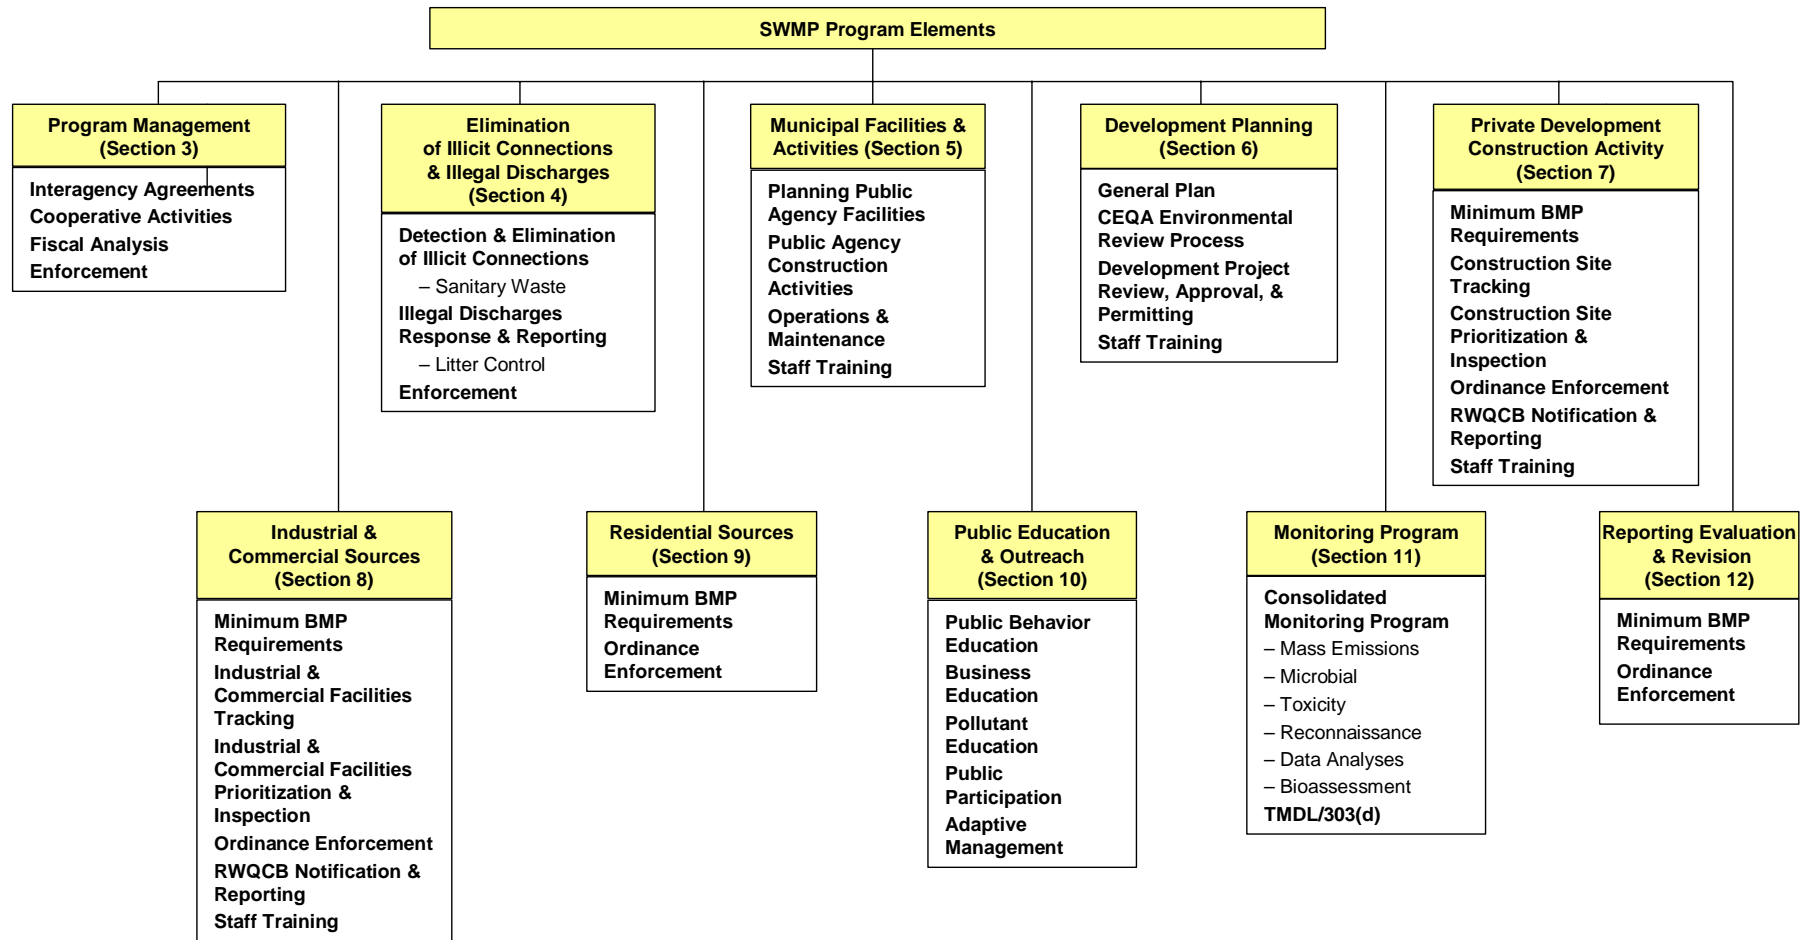

The regulatory framework that provides the foundation for the Third-term MS4 Permit, and therefore this SWMP, is described in Riverside County DAMP. This SWMP is a programmatic document developed by the City of Murrieta to describe its specific ordinances, plans, policies and procedures necessary to manage Urban Runoff and comply with the Third-term MS4 Permit. This SWMP together with the Riverside County DAMP are the principal documents that comprehensively translate the Third-term MS4 Permit requirements into programs and implementation plans for the City of Murrieta. The various program elements of this SWMP are depicted in Figure 2-1.

2.2 DESCRIPTION OF MS4

The major MS4 facilities owned and operated by the City of Murrieta and regulated under the Third-term MS4 Permit consist of 14 miles of underground storm drains. Additionally, within the jurisdictional boundaries of the City of Temecula 19.8 miles of open channels maintained by the Riverside County Flood Control and Water Conservation District.

The City of Murrieta maintains a map of the MS4 facilities that it owns and operates. Each year, the City of Murrieta updates this map and identifies modifications and additions to its major MS4 facilities in the Annual Report.

Figure 2-1. SWMP Program Elements

3.0 PROGRAM MANAGEMENT

3.1 PERMITTEE DEPARTMENTAL RESPONSIBILITIES

There are multiple departments with responsibility to implement elements of this SWMP and to meet the requirements of the Third-term MS4 Permit. An organizational chart depicting the departments and key personnel (position title) with implementation responsibilities is shown in Figure 3-1. Additionally, Table 3-1 is a matrix showing each SWMP element, the departments with implementation responsibilities, the specific responsibilities of each department/organizational unit, and the key personnel by position title.

3.2 WATERSHED AND CITY COOPERATIVE ACTIVITIES

Interagency agreements and other cooperative activities supporting the implementation of the Third-term MS4 Permit requirements are described in the Riverside County DAMP. Modifications to the interagency agreements and changes in the cooperative activities are described in the Annual Reports.

Figure 3-1. SWMP Organizational Chart

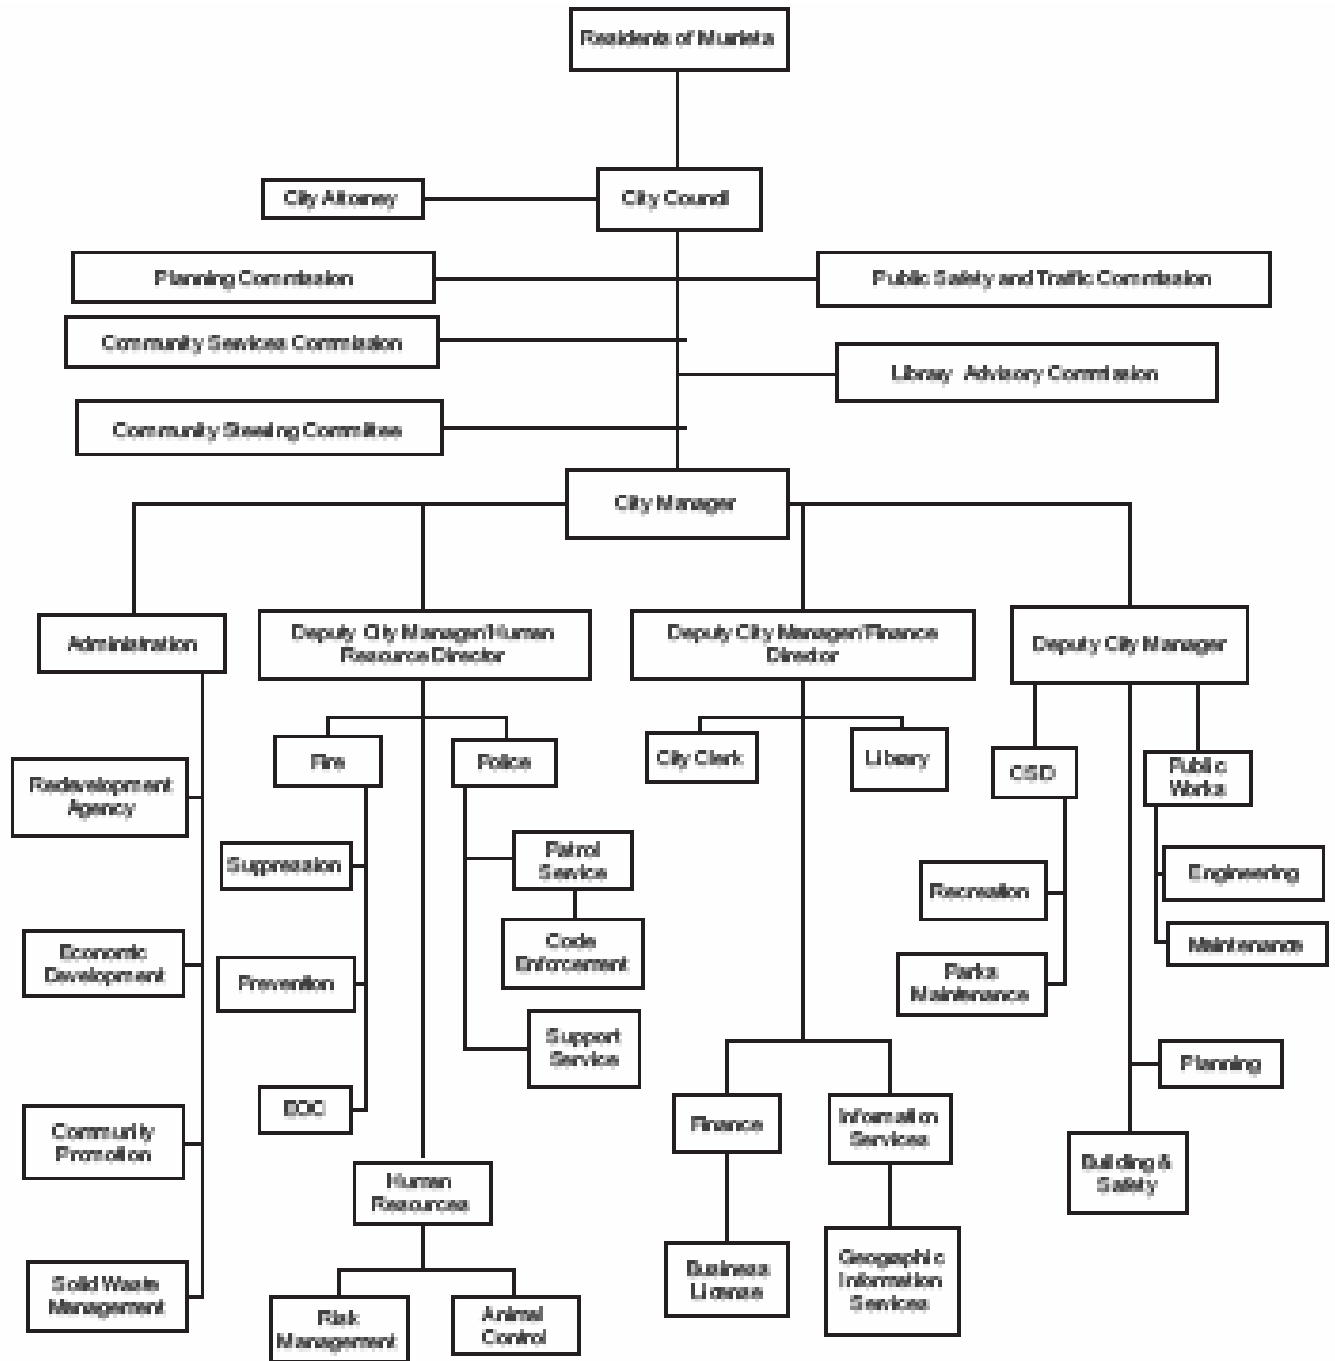

Table 3-1. SWMP Departmental Responsibilities

Program Element	Department	Responsibilities	Key Personnel
Program Management	Public Works	Coordinate NPDES permit compliance, program implementation, prepare annual reports, etc.	NPDES Engineer
		Coordinate with Principal Permittee regarding annual cost sharing towards implementation agreement.	
		Prepare, implement & update City of Murrieta SWMP.	
		Designate minimum BMP requirements.	
Elimination of Illicit Connections & Illegal Discharges (Section J)	Public Works / Code Enforcement	Respond to complaints regarding illegal dumping.	PW Maintenance Manager / Code Enforcement Officer
		Dry weather monitoring.	NPDES Engineer
	Information Technology	Update MS4 system map.	GIS Coordinator
Municipal Facilities & Activities (Section H.1)	Public Works	Routine maintenance of MS4 (i.e. street sweeping operations / contracts, catch basin maintenance, etc.).	PW Maintenance Manager
		Inventory of Municipal Facilities.	NPDES Engineer
		Coordinate annual NPDES training.	
	Community Service	Maintain public parks & implement proper management of pesticides, herbicides and fertilizers.	Community Services Maintenance Superintendent

Program Element	Department	Responsibilities	Key Personnel
Development Planning (Section F)	Public Works / Planning	General Plan review & updates	City Engineer / Planning Manager
		Review & approve project-specific WQMPs for new development & significant redevelopment projects.	NPDES Engineer / Associate Planner
		Coordinate annual NPDES training.	NPDES Engineer
		Issue conditions of approval.	Associate Engineer / Associate Planner
	Planning	Manage environmental planning review (CEQA, initial study checklist, checklist for etc.)	Planning Manager
Private Construction (Section G)	Public Works	Plan checks (grading plans, street improvements plans, storm drain plans) and grading permit issuance.	Plan Checker / Engineering Development Technician
		Coordinate annual NPDES training.	NPDES Engineer
		Maintenance of inventory of construction sites.	
	Public Works / Planning	Issue conditions of approval.	Associate Engineer / Associate Planner
	Public Works / Building	Compliance with grading ordinance & erosion / sediment control measures via field inspections.	Public Works & Building Inspectors
	Code Enforcement	Enforcement of ordinances.	Code Enforcement Officer
Industrial & Commercial Sources (Section H.2)	Riverside County	Survey food & hazardous waste / hazardous materials facilities	Env. Health Specialist / HazMat Specialist
	Public Works	Maintain inventory of industrial & commercial facilities, inspect these facilities based on priority.	NPDES Engineer
		Coordinate annual NPDES training.	
		Reporting of industrial non-filers.	
	Distribute focused brochures for industrial & commercial facilities developed by Riverside County Flood Control & Water Conservation District.		
Code Enforcement	Enforcement of ordinance.	Code Enforcement Officer	
Residential Sources (Section H.3)	Public Works / City Manager's Office	Provide public education to residents regarding minimum BMPs at community events.	NPDES Engineer / Administrative Analyst
	Code Enforcement	Enforcement of ordinances.	Code Enforcement Officer

Program Element	Department	Responsibilities	Key Personnel
Public Education & Outreach (Section E.3 & I)	Public Works	Work with the Principal Permittee to develop and implement the Regional Educational Program.	NPDES Engineer
	Flood Control	Prepare brochures, posters and educational materials for the general public. Attends community outreach events.	Public Education Coordinator
	City Manager's Office	Implement recycling program & provide public education materials during community events.	Administrative Analyst
Monitoring	Flood Control	Implements the Consolidated Monitoring Plan for the Permittees.	Monitoring Program Associate Engineer
	Public Works	Implement dry weather monitoring & assist Flood Control with wet weather monitoring.	NPDES Engineer
Program Reporting, Evaluation and Revision	Public Works	Gather data from applicable departments (Building, Finance, Planning, City Manager's Office, Community Services, Code Enforcement, Information Technology) for preparation of annual report and submit annual report to Principal Permittee.	NPDES Engineer

3.3 FISCAL ANALYSIS

City of Murrieta makes capital expenditures and incurs operation and maintenance (O&M) costs to implement this SWMP and to meet the requirements of the Third-term MS4 Permit. Each year the City of Murrieta reports its capital expenditures and O&M costs incurred during the preceding fiscal year and the budgeted capital expenditures and O&M costs planned for the next fiscal year in the Annual Report. The form presented in Figure 3-2 is used for reporting the fiscal information.

Figure 3-2. Fiscal Analysis of Capital Expenditures and O&M Costs

Program Element	Fiscal Year 200X-200Y		Fiscal Year 200Y-200Z	
	Capital Expenditures (\$k)	O&M Costs (\$k)	Capital Expenditures (\$k)	O&M Costs (\$k)
Program Management				
Annual Fee for MS4 NPDES Permit				
Implementation Agreement Shared Cost				
Elimination of Illicit Connections & Illegal Discharges				
Municipal Facilities and Activities				
Planning & Constructing Facilities				
MS4 Maintenance				
Development Planning				
Private Development Construction (Inspections)				
Industrial and Commercial Sources (Inspections)				
Public Education & Outreach				
Residential Sources				
Monitoring Program				
Program Reporting, Evaluation, and Revision				
Other				
Total				

This detailed fiscal analysis will be provided each year as part of the Individual Annual Report.

The City of Murrieta relies on the following source (or sources) of funds to cover the capital expenditures and the O&M costs associated with implementation of this SWMP and to meet the requirements of the Third-term MS4 Permit.

Source of Funds	Percent of Total Program Funding		Restrictions on Use (if applicable)
	Capital Expenditures	O&M Costs	
County Service Area 152	0% (existing)	77% (existing)	MS4 maintenance, program administration, cost sharing towards implementation agreement
General Fund/Other Revenues	100% (existing)	23% (existing)	Cost sharing towards implementation agreement
Fees	N/A	N/A	

3.4 LEGAL AUTHORITY

The City of Murrieta is revising the NPDES ordinance to specifically address all of the new requirements outlined in the NPDES Permit. *A certification of the City of Murrieta’s adequate legal authority to comply with 40 CFR 122.26(d)(2)(I)(A-F) and the Third-term MS4 Permit associated with the new ordinance will be provided upon adoption of the new ordinance in July 2005. This certification will be similar the certification submitted with the 2004 Annual Report provided in Appendix A.*

The Urban Runoff management and discharge controls addressed by the City of Murrieta’s ordinances may be summarized as follows:

- ◆ The disposal of pollutants onto public or private land is prohibited.
- ◆ Construction activities are required to comply with the local storm water ordinance, the applicable erosion and sediment control (grading) ordinance, and minimum best management practices (BMPs).
- ◆ Priority Development Projects¹ are required to implement BMPs to reduce pollutants to the MEP and to maintain or reduce downstream erosion and protect stream habitat.
- ◆ Illicit connections to the MS4 are prohibited.
- ◆ Illegal Discharges to the MS4 are prohibited. Illegal discharges are discharges to the MS4 other than those permitted by the Regional Board and those non-stormwater discharges as identified in Section B.2 of the Third-term MS4 Permit and Section 4.1 of this SWMP.
- ◆ Stop work orders, non-monetary penalties, fines, financial security (bonds), and the denial or revocation of permits may be imposed for violation of permit conditions or ordinances.

Table 3-2 lists the ordinances that provide this legal authority.

Table 3-2. Ordinances Providing Legal Authority

Ordinance No.	Ordinance Short Title	Provision(s) of Ordinance Addressing Enforcement
177-97	Stormwater / Urban Runoff Management and Discharge Controls	Subarticle 3
97	Grading	Subarticle 4

¹ As defined in Section F.2.b of the Third-term Santa Margarita Region MS4 Permit.

3.5 ENFORCEMENT

The City of Murrieta mandates compliance with its urban runoff related ordinances through implementation of the Enforcement/Compliance Strategy described in Section 3.4.2 of the Riverside County DAMP. City of Murrieta staff with responsibility for enforcement of these ordinances receive training as described in Section 3.4.3 of the Riverside County DAMP. Training logs are maintained for purposes of annual reporting to the Regional Board.

As described in the Riverside County DAMP, the City of Murrieta has the authority to issue administrative orders and injunctions. Appeal of enforcement actions taken under urban runoff related ordinances are made to the City Council. The court system is used only in those circumstances where criminal prosecution is deemed necessary by the Environmental Crimes Strike Force or the City Attorney.

4.0 ELIMINATION OF ILLICIT CONNECTIONS AND ILLEGAL DISCHARGES

The Riverside County DAMP describes the discharge limitations and prohibitions applicable to the City of Murrieta's MS4 (Section 4.1), procedures to be implemented when persistent exceedances of water quality standards are identified (Section 4.2), responding to and reporting illegal discharges (Section 4.4), enforcement measures for illegal discharges and illicit connections (Section 4.5), measures to control litter (Section 4.6), measures to manage sanitary wastes (Section 4.7), and programs to promote collection and proper disposal of hazardous waste (Section 4.8).

Illicit discharges and illegal connections (IC/ID) to the City's MS4 are detected and investigated through a combination of programs and approaches targeted at a variety of the potential pollutant sources. Potential IC/IDs involving the MS4 and the facilities and sources tributary to them are identified and investigated through four types of activities and are investigated as part of existing construction, industrial and commercial programs. The four activities currently used for detection of IC/ID are dry weather inspections, complaint call-ins, business inspections (through the CAP and Department of Health inspections) and through efforts by Public Works to do municipal facility inspections. The Public Works Department, through the annual drainage structure inspection program, looks for illicit discharges when inspecting the catch basin or MS4. This is the most direct method and enables the worker to look for any discharge that appears unusual or may produce a foul odor or coloring. The Public Works Maintenance Manager is familiar with the existing MS4 and the drainage patterns within the region and can take steps to identify the source of what appears to be an illicit connection or illegal discharge. Complaint calls are a direct source of IC/ID information in the area. Residents are directed to call the Murrieta Police Department/Code Enforcement at 951-461-6330 to report any spill or illegal discharges. Murrieta also participates in the regional storm water hotline number currently operational within Riverside County at 800-506-2555, which deals with the reporting of any illegal discharge and related items.

Additionally, the City of Murrieta implements an Illicit Discharge Monitoring Program as described in Section 11 of this SWMP.

An evaluation of the effectiveness of the Illicit Discharge Detection and Elimination component of the SWMP will be included in the Annual Report. The measurable goals addressed in this evaluation will include:

- ◆ Number of illicit discharges, connections and spills reported and/or identified during the reporting period.
- ◆ Number of illicit discharges or connections investigated during the reporting period and the outcome of the investigations.
- ◆ Number and type of enforcement actions taken for illicit discharges or connections during the reporting period.
- ◆ Number of times the City's hotline was called during the reporting period, as compared to previous reporting period.

- ◆ Number and location of dry weather monitoring sites that were monitored during the reporting period.

These measurable goals will be considered in an overall assessment of the effectiveness of the Illicit Discharge Detection and Elimination component. The evaluation will include an assessment of the effectiveness of BMPs that have been implemented for municipal facilities and activities. In addition, major accomplishments of the Illicit Discharge Detection and Elimination component and changes to be implemented in the subsequent year to improve the effectiveness of the program will be included in the evaluation. A reporting form for summarizing this evaluation is included in the Riverside County DAMP.

5.0 MUNICIPAL FACILITIES AND ACTIVITIES

5.1 PLANNING PUBLIC AGENCY FACILITIES

The City of Murrieta has incorporated the development of a project-specific WQMP into the process of planning, designing, and preparing construction plans and specifications for its public agency Priority Development Projects. The policies and procedures implemented by the City of Murrieta to ensure that the planning and design of its public agency Priority Development Projects are similar to those applicable to private development projects.

Each public agency Priority Development Project will include structural source control BMPs and treatment control BMPs as outlined in the WQMP. These BMPs will be required in the site design prior to the issuance of any grading or building permits. Public agency Priority Development Projects will not be allowed to continue through the development process until all of the applicable items in the WQMP have been addressed. Public agency projects which do not require a WQMP, but may potentially cause significant water quality impacts to receiving waters, will be required to include BMPs similar to those outlined in the WQMP in the site design prior to issuance of any grading or building permit.

The procedures to ensure that private development projects prepare a project-specific WQMP are as follows:

- ◆ Applicant will complete a “checklist for identifying projects requiring a project-specific WQMP within the Santa Margarita Region” to determine if one is required.
- ◆ If a project-specific WQMP is required, the applicant will submit a preliminary one with the initial package submitted to the Planning Department.
- ◆ The preliminary project-specific WQMP will be forwarded to the Engineering Department for a thorough review of all items requested in the WQMP.
- ◆ A detailed checklist will be used by the reviewer to determine if the project-specific WQMP is complete.
- ◆ Comments on the preliminary project-specific WQMP will be addressed by the applicant and re-submitted for review.
- ◆ A project-specific WQMP will be deemed “final” when all applicable items have been addressed. The project approval process will be completed with the issuance of specific conditions of approval. These specific conditions of approval will include the implementation of the final project-specific WQMP.
- ◆ The applicant will submit a final project-specific WQMP to the Engineering Department prior to issuance of grading permits. Building Department will verify with the Engineering Department to ensure that the applicant has submitted a final project-specific WQMP to City of Murrieta prior to issuing building permits for the project.

5.2 PUBLIC AGENCY CONSTRUCTION ACTIVITIES

Section 5.2 of the Riverside County DAMP describes how the City of Murrieta ensures that its construction projects are in compliance with the latest version of the General Permit for Stormwater Discharges Associated with Construction Activity and the requirements of the Third-term MS4 Permit.

5.3 OPERATION AND MAINTENANCE OF PUBLIC AGENCY FACILITIES

Section 5.3 of the Riverside County DAMP describes the program for operation, maintenance, and inspection of City of Temecula facilities. City of Murrieta has modified the “Template Facility Pollution Prevention Plan (PPP)” contained in the Riverside County DAMP to incorporate minimum BMPs for categories of municipal operations (parks, vehicle maintenance, transportation yards, etc). The minimum BMPs will be required, as applicable, at each facility for which the minimum BMPs are applicable.

In general, copies of the PPP will be maintained at each facility. However, the City of Murrieta operates many facilities (e.g., parks, trails) that do not maintain onsite staff, maintenance equipment or materials. In these cases, a copy of the PPP for the applicable category of municipal operation will be maintained at the centralized maintenance facility (e.g., corporate yard) corresponding to the operations category or where the maintenance contracts are administered (i.e. City Hall).

Section 5.3 of the Riverside County DAMP describes the program for operation, maintenance, and inspection of City of Murrieta facilities. An inventory of the City of Murrieta municipal facilities is provided in Appendix B. The municipal activities conducted by the City of Murrieta include:

- ◆ street sweeping,
- ◆ catch basin cleaning,
- ◆ maintenance of MS4 facilities,
- ◆ landscape maintenance,
- ◆ maintenance of parks and trails,
- ◆ swimming pool maintenance, and
- ◆ operation of corporation yards (vehicle and equipment maintenance, storage, etc.)

At a minimum, catch basins in the City of Murrieta are cleaned twice annually – once prior to the rainy season and once following the end of the rainy season. Repairs and stenciling (“Only rain in the drain” or something similar) of the catch basins are performed throughout the year based on the observations documented during the cleaning.

All city-maintained streets are swept twice a month by Interstate Sweeping Systems. Erosion and sediment discharges from right-of-ways, slopes of public facilities, and city-owned properties are addressed throughout the year. All groundcover, including landscape is properly maintained to avoid potential damage from exposed areas.

5.4 FIRE BMPs

Section 5.3 of the Riverside County DAMP describes the measures implemented by the City of Murrieta to reduce pollutants entering the MS4 from non-emergency fire fighting flows such as fire training activities and fire hydrant/sprinkler testing or flushing.

5.5 TRAINING FOR MUNICIPAL MAINTENANCE EMPLOYEES

Training of City of Murrieta's staff responsible for implementing the municipal maintenance programs is described in Section 5.5 of the Riverside County DAMP.

5.6 ASSESSMENT OF EFFECTIVENESS

An evaluation of the effectiveness of the Municipal component of the SWMP will be included in the Annual Report. The measurable goals addressed in this evaluation will include:

- ◆ Number of inspections conducted at existing facilities.
- ◆ Number and type of enforcement actions related to construction sites.
- ◆ Number of catch basins and inlets that were inspected and the number that were cleaned.
- ◆ Amount and type of debris removed from catch basins, streets and open channels, including an identification of problem areas that generate the most pollutants.
- ◆ Description and number of training efforts conducted during the reporting period for municipal facility operators and/or inspectors, including number trained.

These measurable goals will be considered in an overall assessment of the effectiveness of the Municipal component. The evaluation will include an assessment of the effectiveness of BMPs that have been implemented for municipal facilities and activities. In addition, major accomplishments of the Municipal component and changes to be implemented in the subsequent year to improve the effectiveness of the program will be included in the evaluation. A reporting form for summarizing this evaluation is included in the Riverside County DAMP.

6.0 DEVELOPMENT PLANNING

6.1 INTRODUCTION

Section 6.0 of the Riverside County DAMP describes the development project approval process implemented by the City of Murrieta to ensure that urban runoff from new development and redevelopment is reduced to the MEP, that post-development runoff volumes and velocities will be controlled, and that water quality objectives will not be violated by new development and redevelopment projects.

6.2 GENERAL PLAN

6.2.1 General Plan Review and Amendment

Watershed protection principles and objectives for managing Urban Runoff for land development are reflected in the appropriate policies, goals, and objectives of the City of Murrieta General Plan. The City of Murrieta reviewed its General Plans to ensure that the following principles and policies are properly considered:

- a) Minimize the amount of impervious surfaces and directly connected impervious surfaces areas of development and, where feasible, slow runoff and maximize on-site infiltration of runoff.
- b) Implement pollution prevention methods supplemented by source control and treatment control BMPs. Use small collection strategies located at, or as close as possible to, the source (i.e., the point where water initially meets the ground) to minimize the transport of urban runoff and pollutants offsite and into an MS4.
- c) Preserve, and where possible, create or restore areas that provide important water quality benefits, such as riparian corridors, wetlands, and buffer zones. Encourage land acquisition of such areas.
- d) Limited disturbance of natural water bodies and natural drainage systems caused by development including roads, highways, and bridges.
- e) Prior to making land use decisions, utilize methods available to estimate increases in pollutant loads and flows resulting from projected future development. Require incorporation of appropriate BMPs to mitigate the projected increases in pollutant loads and flows.
- f) Avoid development of areas that are particularly susceptible to erosion and sediment loss; or establish development guidance that identifies these areas and protects them from erosion and sediment loss.
- g) Reduce pollutants associated with vehicles and increasing traffic resulting from development.
- h) Post-development runoff from a site shall not contain pollutant loads that cause or contribute to an exceedance of receiving water quality objectives and which have not been reduced to the MEP.

When the City of Murrieta amends elements of its General Plan, the draft General Plan amendments are provided to the Regional Board for comment.

6.3 CEQA ENVIRONMENTAL REVIEW PROCESS

The City of Murrieta has reviewed its CEQA processes to ensure that Urban Runoff issues are properly considered and addressed. Where necessary, the processes were revised to consider and mitigate impacts to Urban Runoff quality and Receiving Waters. The City of Murrieta specifically considers the following questions/issues during the CEQA process:

- a) Could the proposed project result in increased impervious surfaces and associated increased runoff? Consider water quality parameters such as temperature, dissolved oxygen, turbidity and other typical stormwater pollutants (e.g. heavy metals, pathogens, petroleum derivatives, synthetic organics, sediment, nutrients, oxygen demanding substances, and trash).
- b) Could the proposed project result in significant alteration of receiving water quality during or following construction?
- c) Could the proposed project result in increased impervious surfaces and associated increased runoff?
- d) Could the proposed project create significant adverse environmental impact to drainage patterns due to changes in runoff flow rates or volumes?
- e) Could the proposed project result in increased erosion downstream?
- f) Is the project tributary to an already impaired water body, as listed on the Clean Water Act (CWA) Section 303(d) list? If so, can it result in an increase in any pollutant for which the water body is already impaired?
- g) Is the project tributary to other environmentally sensitive areas? If so, can it exacerbate already existing sensitive conditions?
- h) Could the proposed project have a potentially significant environmental impact on surface water quality of marine, fresh, or wetland waters?
- i) Could the proposed project have a potentially significant adverse impact on groundwater quality?
- j) Could the proposed project cause or contribute to an exceedance of applicable surface or groundwater receiving water quality objectives or degradation of beneficial uses?
- k) Can the project impact aquatic, wetland, or riparian habitat?

These Urban Runoff pollution issues are considered in the Initial Study process (project application form and checklist) and in the preparation and reviews of environmental documents as discussed in the subsections that follow. These questions/guidance are provided to:

- ◆ Environmental planning staff for use in preparing and reviewing CEQA documents for internal city/county projects and when reviewing CEQA documents prepared by the private sector
- ◆ Consultants and other members of the private sector for use in preparing CEQA documents
- ◆ Project applicants during the CEQA preliminary review process
- ◆ Participants attending training related to the requirements of the Third-term MS4 Permit, the Riverside County DAMP, or the WQMP.

Project Application Form

All planning applications for new development and significant redevelopment projects are currently being revised to include the submittal of a project-specific WQMP. The revised applications will be available as of July 1, 2005 and included in Appendix C of the final SWMP.

Initial Study Checklist

The City of Murrieta utilizes the Initial Study Checklist contained in Appendix D.

6.4 DEVELOPMENT PROJECT REVIEW, APPROVAL, AND PERMITTING

For all Priority Development Projects that do not have Conditions of Approval or Tentative Tract, Subdivision, or Parcel map approval by July 13, 2005, the project applicant is required to prepare a project-specific WQMP that is in conformance with the Riverside County Water Quality Management Plan for Urban Runoff, which is Appendix O of the Riverside County DAMP. The primary objective of the WQMP, through application of Site Design, Source Control, and Treatment Control BMPs on a project-specific basis, is to ensure that the land use approval and permitting process will minimize the impact of Urban Runoff. The ordinance that provides the City of Murrieta the authority to implement and enforce the WQMP is discussed in Section 3.4 of this SWMP. The policies and procedures for project review, approval, permitting, and permit close-out are described in Section 6.4 of the Riverside County DAMP.

6.5 TRAINING

The educational program for developers and contractors and training of municipal staff is described in Section 6.5 of the Riverside County DAMP.

6.6 ASSESSMENT OF EFFECTIVENESS

An evaluation of the effectiveness of the Development Planning component of the SWMP will be included in the Annual Report. The measurable goals addressed in this evaluation will include:

- ◆ Number of developments conditioned to meet WQMP requirements.
- ◆ Amount of training conducted during the reporting period, including number of staff trained.

These measurable goals will be considered in an overall assessment of the effectiveness of the Development Planning component. In addition, major accomplishments of the Development Planning component changes to be implemented in the subsequent year to improve the effectiveness of the program will be included in the evaluation. A reporting form for summarizing this evaluation is included in the Riverside County DAMP.

7.0 PRIVATE DEVELOPMENT CONSTRUCTION ACTIVITY

The Riverside County DAMP describes pollution prevention measures and construction site BMPs (Section 7.1), development of a construction site inventory/database (Section 7.2), procedures for construction site inspections (Section 7.3) and enforcement (Section 7.4), notification of the Regional Board (Section 7.5), annual reporting requirements (Section 7.6), training of municipal staff (Section 7.7) and education/outreach regarding construction activities (Section 7.7).

7.1 CONSTRUCTION SITE INVENTORY

An inventory of construction sites within/under the jurisdiction of the City of Murrieta is provided in Appendix E. This inventory of construction sites is updated annually prior to the rainy season.

7.2 CONSTRUCTION SITE INSPECTION

When conducting inspections of construction sites the City of Murrieta staff utilize the inspection form provided in Appendix F.

7.3 ASSESSMENT OF EFFECTIVENESS

An evaluation of the effectiveness of the Construction component of the SWMP will be included in the Annual Report. The measurable goals addressed in this evaluation will include:

- ◆ Number and type of enforcement actions related to construction sites.
- ◆ Description and number of training efforts conducted during the reporting period, including number and category of persons (staff inspectors, contractors, construction site operators) trained.

These measurable goals will be considered in an overall assessment of the effectiveness of the Construction component. In addition, major accomplishments of the Construction component and changes to be implemented in the subsequent year to improve the effectiveness of the program will be included in the evaluation. A reporting form for summarizing this evaluation is included in the Riverside County DAMP.

8.0 INDUSTRIAL AND COMMERCIAL SOURCES

The Riverside County DAMP describes development of an industrial and commercial facility inventory/database (Section 8.1), prioritization of facilities and inspection frequency (Section 8.3), procedures for facility inspections (Section 8.4), enforcement (Section 8.5), notification of the Regional Board (Section 8.6), reporting requirements (Section 8.7), and training of municipal staff (Section 8.8).

8.1 INDUSTRIAL/COMMERCIAL FACILITY DATABASE AND INSPECTIONS

The City of Murrieta developed and maintains an inventory/database of industrial and commercial facilities within their jurisdiction. This inventory/database is provided in Appendix G. Maintenance of the facility inventory/database includes regularly updating the inventory/database for information obtained during facility inspections or other sources.

Business inspections are currently handled through the City's participation in the Compliance Assistance Program (CAP) utilizing both the County's Department of Environmental Health (DEH) and both the City and County Fire Departments Hazardous Materials Divisions (HAZMAT). As part of the inspections these programs provide, they complete storm water compliance surveys during routine inspections of (1) food establishments and (2) facilities where storing and handling of hazardous material is a part of the business. These surveys are forwarded to the City and the records are utilized in creating a working file for those establishments and keeping a work history of any noted deficiencies and follow up actions.

8.2 SMR MINIMUM BMPs FOR INDUSTRIAL/COMMERCIAL FACILITIES

The City of Murrieta has designated a set of minimum BMPs for the industrial and commercial facilities within their jurisdiction to reduce the discharge of pollutants to the MEP. The minimum BMPs, all of which are pollution prevention BMPs, are:

- ◆ Good Housekeeping
- ◆ Proper Materials Handling and Storage
- ◆ Proper Waste Handling
- ◆ Preventive Maintenance
- ◆ Spill Prevention and Response Procedures (where applicable)
- ◆ Facility Personnel Training

Through the process of conducting inspections of industrial and commercial facilities, the inspectors have made the facilities aware of these minimum BMPs and additional BMPs (when appropriate) and of the City of Murrieta's stormwater/urban runoff ordinance.

As implementation of this SWMP progresses, the need for additional BMPs to specifically address the pollutants causing or contributing to an impairment of Receiving Waters that are included in the 303(d)

List or Environmentally Sensitive Areas (ESAs) will be assessed. This assessment will be conducted as part of the overall program effectiveness evaluation described in Section 12.

Where implementation of the minimum BMPs and the additional BMPs are identified as being insufficient to achieve compliance with the Third-term Santa Margarita MS4 Permit, the City of Murrieta requires the implementation of additional site-specific BMPs.

8.3 ASSESSMENT OF EFFECTIVENESS

An evaluation of the effectiveness of the Industrial and Commercial Sources component of the SWMP will be included in the Annual Report. The measurable goals addressed in this evaluation will include:

- ◆ Number of inspections conducted.
- ◆ Number and type of enforcement actions taken.

These measurable goals will be considered in an overall assessment of the effectiveness of the Industrial and Commercial Sources component. In addition, major accomplishments of the Industrial and Commercial Sources component and changes to be implemented in the subsequent year to improve the effectiveness of the program will be included in the evaluation. A reporting form for summarizing this evaluation is included in the Riverside County DAMP.

9.0 RESIDENTIAL SOURCES

9.1 HIGH PRIORITY RESIDENTIAL ACTIVITIES

The City of Murrieta has identified the high priority residential activities that it believes may be contributing a significant pollutant load to its MS4. The residential activities that have been identified as high priority in the City of Murrieta are:

- ◆ Automobile repair and maintenance
- ◆ Automobile washing
- ◆ Automobile parking
- ◆ Home and garden care activities and product use (pesticides, herbicides, and fertilizers)
- ◆ Disposal of household hazardous waste
- ◆ Disposal of pet waste
- ◆ Disposal of green waste
- ◆ Horse stables and other animal keeping

9.2 MINIMUM BMPs FOR RESIDENTIAL ACTIVITIES

The City of Murrieta has designated a set of minimum BMPs for residential activities within their jurisdiction to reduce the discharge of pollutants to the MEP. The minimum BMPs, all of which are pollution prevention BMPs, are:

- ◆ Proper maintenance of irrigation systems
- ◆ Proper pool maintenance
- ◆ Pick-up and proper disposal of pet waste
- ◆ Proper use and disposal of home and garden products
- ◆ Proper disposal of green waste
- ◆ Proper disposal of household hazardous waste
- ◆ Proper automobile and home maintenance

Through public education and outreach the City of Murrieta has notified the residents of the minimum BMPs and additional BMPs (when appropriate) and of its stormwater/urban runoff ordinance.

As implementation of this SWMP progresses, the need for additional BMPs to specifically address the pollutants causing or contributing to an impairment of Receiving Waters that are included in the 303(d) List or Environmentally Sensitive Areas (ESAs) will be assessed. This assessment will be conducted as part of the overall program effectiveness evaluation described in Section 12.

9.3 ENFORCEMENT

Enforcement of the City of Murrieta's storm water ordinance (including the prohibition of non-exempt non-stormwater discharges) is described in Section 3.4 of the Riverside County DAMP.

9.4 ASSESSMENT OF EFFECTIVENESS

An evaluation of the effectiveness of the Residential Sources component of the SWMP will be included in the Annual Report. The measurable goals addressed in this evaluation will include:

- ◆ Number and type of enforcement actions taken.
- ◆ Number and type of internal and external education and outreach activities.

These measurable goals will be considered in an overall assessment of the effectiveness of the Residential Sources component. In addition, major accomplishments of the Residential Sources component and changes to be implemented in the subsequent year to improve the effectiveness of the program will be included in the evaluation. A reporting form for summarizing this evaluation is included in the Riverside County DAMP.

10.0 PUBLIC EDUCATION AND OUTREACH

The City of Murrieta implements the public education and outreach program described in the Riverside County DAMP, which addresses the requirements of the Third-term MS4 Permit (Section 10.2), the objectives of the public education and outreach program (Section 10.3), implementation of the program (Section 10.4), and the specific components of the program, including public participation (Section 10.5).

The City of Murrieta utilizes the resources of the Riverside County Flood Control & Water Conservation District (<http://www.floodcontrol.co.riverside.ca.us/stormwater>) to promote public awareness. Education materials are available at the Engineering counter, the Building counter, business license counter, etc. The Public Works Inspectors also distribute education materials related to construction site inspections. Educational materials regarding pet waste, household hazardous waste pick-up schedule, pool and spa maintenance, etc. Education materials are also distributed during the annual spring cleaning event, during the annual birthday party (July 1) and during any other public event.

An evaluation of the effectiveness of the Public Education and Outreach component of the SWMP will be included in the Annual Report. The measurable goals addressed in this evaluation will include the number of:

- ◆ Permittee employees trained
- ◆ Construction outreach events conducted
- ◆ Industrial/Commercial outreach events conducted
- ◆ Media impressions
- ◆ Classroom presentations
- ◆ Public education events conducted

These measurable goals will be considered in an overall assessment of the effectiveness of the Public Education and Outreach component. In addition, major accomplishments of the Public Education and Outreach component and changes to be implemented in the subsequent year to improve the effectiveness of the program will be included in the evaluation. A reporting form for summarizing this evaluation is included in the Riverside County DAMP.

11.0 MONITORING PROGRAM

The Consolidated Program for Water Quality Monitoring is described in Section 11 of the Riverside County DAMP.

Additionally, the City of Murrieta developed and implements an Illicit Discharge Monitoring Program, for its own MS4. The following stations have been identified as illicit discharge (dry weather) monitoring stations:

- ◆ Empire Creek
- ◆ California Oaks Channel

These stations are monitored (inspected) at least twice a year between May 1st and September 30th. For each of these stations, the City of Murrieta records the following information:

- ◆ Time (days) since last rain event
- ◆ Total rainfall (inches) for last rain event
- ◆ Physical description of station/conveyance (e.g., 24-inch RCP)
- ◆ Predominant land uses of station's drainage area
- ◆ Estimation of flow, if any:
- ◆ Observations (odor, color, deposits, staining, etching, stressed vegetation, etc.)

The City of Murrieta will utilize the field reporting form developed as part of the Consolidated Program for Water Quality Monitoring (Section 12 of the Riverside County DAMP).

If flow or accumulated water is observed and more than 72 hours have past since the last rain event, field screening analysis is conducted for specific conductance, turbidity, pH, temperature, and dissolved oxygen. Additionally, if the field screening analysis indicates the potential for an illicit connection or illegal discharge and there is adequate flow or accumulated water, samples will be collected² and submitted to a water quality analytical laboratory. The samples will be analyzed for the following constituents: total hardness, oil & grease, ammonia nitrogen, nitrate nitrogen, total phosphorus, total and dissolved copper, surfactants (MBAs), diazinon, chlorpyrifos, dissolved lead, E. coli, total coliform, and fecal coliform.

Analytical results (either laboratory or field screening) that exceed the numeric criteria developed as part of the Consolidated Program for Water Quality Monitoring (Section 12 of the Riverside County DAMP) will trigger further investigation and inspection with the objective of eliminating the illicit connection or illegal discharge.

² Samples will only be collected if there is adequate flow or accumulated water to allow for proper field quality assurance and quality control for sample collection. For example, due to sample preservation requirements, a separate sample must be collected for analysis of Oil & Grease and the sample must be collected without compromising the amount of preservative in the sample bottle.

The City of Murrieta summarizes the results of its Illicit Discharge Monitoring Program for each annual report submitted to the Regional Board.

12.0 PROGRAM REPORTING, EVALUATION, AND REVISION

The City of Murrieta implements the reporting (Section 12.1), program evaluation (Section 12.2), and program revision elements described in the Riverside County DAMP.

Inventory of City of Murrieta Municipal Facilities and Activities

Name	Address / Location	Description	Threat Priority
Corporate Yard			
Public Works Maintenance Yard	41755 Juniper Avenue	Vehicle parking, storage of maintenance supplies, storage of BMPs for Municipal Facilities, etc.	Medium
Existing Parks			
Alta Murrieta Sports Park	39775 Alta Murrieta Drive	Barbeque, baseball fields, concession stand, football field, open grass areas, parking lot, picnic tables or park benches, restrooms, tot lot / playground equipment, volleyball court & water fountains.	Medium
Antigua Park	41405 Nutmeg Street	Mature trees, open grass areas, picnic tables or park benches & water fountains.	Medium
Barratt Park	24535 Las Brisas Road South	Bike path / walking trail, mature trees, open grass areas, picnic tables or park benches & water fountains.	Medium
Bear Valley Park - 1	23340 Holly Drive	Bike path / walking trail & mature trees.	Medium
Bear Valley Park - 2	23550 Rustic Road	Bike path / walking trail & mature trees.	Medium
California Oaks Sports Park	40600 California Oaks Road	Barbeque, baseball fields, basketball court, mature trees, open grass areas, parking lot, picnic tables or park benches, restrooms, shelters, soccer field, lit & unlit softball fields, swimming pool / wading pool, tennis court, tot lot / playground equipment, volleyball court & water fountains.	Medium
Calle Cipres Park	38200 Calle Cipres	Picnic tables or park benches, tot lot / playground equipment & water fountains.	Medium
Carson Park	37765 Cresta Del Reyo	Open grass areas, tot lot / playground equipment, volleyball court & water fountains.	Medium
Century Park	Las Brisas Road North	Barbeque, bike walk / walking trail, mature trees, open grass areas, picnic tables or park benches, tot lot / playground equipment & water fountains.	Medium
Cole Canyon Park (natural)	Copper Canyon Development	Bike walk / walking trail & mature trees.	Medium

Name	Address / Location	Description	Threat Priority
Community Center / Hunt Field	41810 Juniper Street	Barbeque, baseball fields, basketball court, mature trees, open grass areas, parking lot, picnic tables or park benches, tennis court, tot lot / playground equipment & water fountains.	Medium
Copper Canyon Park	23790 Via Alisol	Barbeque, bike path / walking trail, mature trees, open grass areas, parking lot, picnic tables or park benches, shelters, soccer field, unlit softball field, tot lot / playground equipment & water fountains.	Medium
Crystal Aire Park	Lincoln Avenue	Barbeque, open grass areas & picnic tables or park benches.	Medium
Eastgate Park	25200 Whitewood Road	Picnic tables or park benches, tot lot / playground equipment & water fountains.	Medium
Firefighters Park	Murrieta Hot Springs Road	Barbeque, baseball fields, open grass areas, parking lot, picnic tables or park benches, restrooms / port-o-lets, shelters, spray turtles, tot lot / playground equipment, volleyball court & water fountains.	Medium
Glen Arbor Park	Jackson Avenue	Barbeque, open grass areas & picnic tables or park benches.	Medium
Mapleton Park	Poinsettia Drive off Antelope Road	Barbeque, bike path / walking trail, open grass areas, parking lot, picnic tables or park benches, restrooms / port-o-lets, shelters, soccer field, unlit softball field, tot lot / playground equipment, volleyball court & water fountains.	Medium
Meadowridge Park	Hancock Avenue	Barbeque, open grass areas, picnic tables or park benches, tot lot / playground equipment & water fountains.	Medium
Mira Mosa Park	Via Mira Mosa and Calle Andras	Barbeque, bike path / walking trail, open grass areas, picnic tables or park benches, restrooms / port-o-lets, unlit softball field, tot lot / playground equipment & water fountains.	Medium
Montafino Park	24146 Huntridge Road	Open grass areas, picnic tables or park benches, tot lot / playground equipment & water fountains.	Medium
Mountain Pride Park	Mountain Pride Drive	Mature trees, open grass areas, parking lot, picnic tables or park benches, restrooms / port-a-lets & unlit softball field.	Medium
Murrieta Elementary School Park	B Street off Adams Avenue	Basketball court, open grass areas, parking lot, picnic tables or park benches, restrooms / port-o-lets, shelters, unlit softball fiels, tot lot / playground equipment & water fountains.	Medium
Oak Tree Park	37710 Oxford Road	Mature trees & picnic tables or park benches.	Medium

Name	Address / Location	Description	Threat Priority
Park 28b - (natural)	Clinton Keith Road near Nutmeg Street	Mature trees.	Medium
Park 35 - (natural) (overlooks Tovashal School)	Five Tribes Trail	Bike path / walking trail & mature trees.	Medium
Pond Park	Murrieta Hot Springs Road	Bike path / walking trail, catch and release pond, mature trees, open grass areas, picnic tables or park benches & restrooms / port-o-lets.	Medium
Rancho Acacia Park	39785 Avenida Palizada	Barbeque, bike path / walking trail, open grass areas, par exercise course, picnic tables or park benches, shelters, unlit softball field, tot lot / playground equipment & water fountains.	Medium
Rosewood Park	Mark Way and Via Alisol	Open grass areas.	Medium
Shady Maple Park	29785 Calle Andras	Barbeque, open grass areas, parking lot, picnic tables or park benches, shelters, soccer field, unlit softball field & tot lot / playground equipment.	Medium
Sycamore Park	Madison Avenue and Breckin Court	Basketball court, open grass areas, picnic tables or park benches, shelters, tot lot / playground equipment & water fountains.	Medium
Valley Vista Park	Morning Dove	Barbeque, open grass areas, picnic tables or park benches, shelters, tot lot / playground equipment & water fountains.	Medium
Vinatge Reserve Park	Vintage Reserve Drive	Barbeque, open grass areas, parking lot, picnic tables or park benches, shelters, tot lot / playground equipment & water fountains.	Medium
Warm Springs Park (Park E)	Via Temprano	Bike path / walking trail, horseshoe pits, mature trees, parking lot, & picnic tables or park benches.	Medium
Whitewood Park (Park F)	39333 Whitewood Road	Mature trees, open grass areas, picnic tables or park benches & shelters.	Medium
Parks Under Construction			
Antelope Hills Park - Active	Carlton Oaks Street off Murrieta Oaks Avenue	Amphitheater, barbeque, open grass areas, picnic tables or park benches, shelters, tot lot / playground equipment & water fountains.	Medium
Antelope Hills Park - (natural)	Carlton Oaks Street off Murrieta Oaks Avenue	Bike path / walking trail & mature trees.	Medium
Echo Canyon Park	On Nutmeg Street near Jameson Street	Open grass areas, picnic tables or park benches, tot lot / playground equipment & water fountains.	Medium

Name	Address / Location	Description	Threat Priority
Monte Viste Park	Andromeda Street south of Via Mira Mosa	Basketball court, open grass areas, picnic tables or park benches & water fountains.	Medium
Los Alamos Hills Sports Park (Phase 1)	Hunter / Whitewood / Los Alamos Road	Barbeque, baseball fields, basketball court, bike path / walking trail, concession stand, football field, open grass areas, parking lot, picnic tables or park benches, restrooms / port-o-lets, shelters, soccer field, lit & unlit softball fields, tennis court, tot lot / playground equipment, volleyball court & water fountains.	Medium
Murrieta Oaks Park	Sweetspire Terrace near Laurelwood Avenue	Picnic tables or park benches, tot lot / playground equipment & water fountains.	Medium
Northstar Park	Pictor Avenue east of Gemina Avenue	Barbeque, open grass areas, picnic tables or park benches, shelters, soccer field, unlit softball field, tot lot / playground equipment & water fountains.	Medium
Palomar Park	Via Mira Mosa near La Alba Drive	Open grass areas, picnic tables or park benches, shelters, tot lot / playground equipment & water fountains.	Medium
Parks In Plan Check			
Blackmore Ranch	On Nutmeg Street just north of Clinton Keith Rd	Barbeque, bike path / walking trail, open grass areas, parking lot, picnic tables or park benches, shelters, tot lot / playground equipment & water fountains.	Medium
Bremerton	-	Barbeque, bike path / walking trail, open grass areas, picnic tables or park benches, shelters, tot lot / playground equipment & water fountains.	Medium
Copper Canyon Park - Phase 2	23790 Via Alisol	Barbeque, basketball court, bike path / walking trail, parking lot, picnic tables or park benches, restrooms / port-o-lets, shelters, soccer field, unlit softball field, tot lot / playground equipment & water fountains.	Medium
Creekside Villages	-	Barbeque, basketball court, picnic tables or park benches, shelters, tot lot / playground equipment & water fountains.	Medium
Mira Mosa Park - Phase 2	Via Mira Mosa and Calle Andras	Barbeque, basketball court, open grass areas, parking lot, picnic tables or park benches, shelters & water fountains.	Medium
Town Square Park	Kalmia/Jefferson/Adams/J uniper - entire block	Amphitheater, bike path / walking trail, open grass areas, parking lot, restrooms / port-o-lets & water fountains.	Medium
Vineyards		Barbeque, parking lot, picnic tables or park benches, restrooms / port-o-lets, soccer field, tot lot / playground equipment & water fountains.	Medium

Name	Address / Location	Description	Threat Priority

Murrieta Police Station	24701 Jefferson Avenue	Offices and parking lot.	Medium

APPENDIX C

Project Application Form

(Under Revision – Available July 1, 2005)

APPENDIX D
Initial Study Checklist

INITIAL STUDY

CITY OF MURRIETA COMMUNITY DEVELOPMENT DEPARTMENT

I. BACKGROUND INFORMATION

1. **Project Title:** _____
2. **Lead Agency:** City of Murrieta
Address: 26442 Beckman Court
Murrieta, CA 92562-8850
3. **Contact Person:** _____
Phone Number: _____
4. **Project Location:** _____
5. **Project Sponsor:** _____

II. PROJECT ASSESSMENT

1. **Project Description:** _____

2. **Description of the Project Site:** _____

3. **Land Uses:**
North: _____
East: _____
South: _____
West: _____
4. **General Plan Designation:** _____
5. **Zoning:** _____
6. **Other Agencies whose approval may be required:** _____

III. ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" or "Potentially Significant Unless Mitigated," as indicated by the checklist on the following pages.

Land Use & Planning	Water	Aesthetics
Public Services	Biological Resources	Geophysical
Utilities & Service Systems	Energy & Mineral Resources	Hazards
Population & Housing	Cultural Resources	Noise
Transportation/Circulation	Recreation	Air Quality
Mandatory Findings of Significance		

IV. DETERMINATION

On the basis of this initial evaluation:

I find that the proposed project **COULD NOT** have a significant effect on the environment, and a **NEGATIVE DECLARATION** will be prepared.

I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because the mitigation measures described on an attached sheet have been added to the project. **A MITIGATED NEGATIVE DECLARATION** will be prepared.

I find that the project **MAY** have a significant effect on the environment, and an **ENVIRONMENTAL IMPACT REPORT** is required.

I find that the proposed project **MAY** have a significant effect(s) on the environment, but at least one effect (1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and (2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets, if the effect is a "potentially significant impact" or "potentially significant unless mitigated." An **ENVIRONMENTAL IMPACT REPORT** is required, but it must analyze only the effects that remain to be addresses.

I find that although the proposed project could have a significant effect on the environment, there **WILL NOT** be a significant effect in this case because all potentially significant effects (a) have been analyzed adequately in an earlier EIR pursuant to applicable standards and (b) have been avoided or mitigated pursuant to that earlier EIR, including revisions or mitigation measures that are imposed upon the proposed project.

BY:

Name

Date

Title

EVALUATION OF ENVIRONMENTAL IMPACTS:

- 1) *A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources the City cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g. the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).*

A "No Impact" answer does not require a source listing if it is clearly apparent by a reasonable person that the project does not affect a particular issue (e.g. the construction of infrastructure will not impact parking capacity). The source reference in the parentheses would be "not applicable" or (N/A).

Issues (and Supporting Information Sources):	Potentially Significant Impact	Potentially Significant Unless Mitigated	Less than Significant Impact	No Impact
--	--------------------------------------	--	------------------------------------	--------------

Would the proposal:

Insufficient parking capacity? (N/A)

- 2) All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.
- 3) "Potentially Significant Impact" is appropriate if an effect is significant or potentially significant, or if the Planning Department staff lacks information to make a finding of insignificance. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.
- 4) "Potentially Significant Unless Mitigated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less than Significant Impact." The Planning Department must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section 17, "Earlier Analyses," may be cross-referenced).
- 5) Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063(c)(3)(D). Earlier analyses are discussed in Section 18 at the end of the checklist.
- 6) A reference list of information sources for potential impacts (e.g. general plans, zoning ordinances) has been established. The source list is attached to the back of the checklist and other sources used or individuals contacted should be cited in the impact assessment discussion. See sample question below.

Issues (and Supporting Information Sources):	Potentially Significant Impact	Potentially Significant Unless Mitigated	Less than Significant Impact	No Impact
--	--------------------------------------	--	------------------------------------	--------------

*Would the proposal result in potential impacts involving:
Landslides or mudslides?*

VI. IMPACT ASSESSMENT CHECKLIST & DISCUSSION

A brief explanation is required for all answers except “No Impact” answers that are adequately supported by the information sources cited in the parentheses following each question.

Issues (and Supporting Information Sources):	Potentially Significant Impact	Potentially Significant Unless Mitigated	Less than Significant Impact	No Impact
1. LAND USE & PLANNING. <i>Would the proposal:</i>				
a) Conflict with general plan designation or zoning? (1a, 1n, 2, 13, 14)				
b) Conflict with applicable environmental plans or policies adopted by agencies with jurisdictions over the project? (1, 2, 13, 14)				
c) Affect agricultural resources or operations? (1, 13, 14)				
d) Disrupt or divide the physical arrangement of an established community (including a low-income or minority community)? (1, 2, 13, 14)				
e) Be compatible with existing land use in the vicinity? (1,2, 13, 14)				

Issues (and Supporting Information Sources):	Potentially Significant Impact	Potentially Significant Unless Mitigated	Less than Significant Impact	No Impact
2. PUBLIC SERVICES. <i>Would the proposal have an effect upon or result in a need for new or altered governmental services in any of the following areas:</i>				
a) Fire protection (1, 2, 13, 14, 15)				
b) Police protection? (1, 2, 13, 14, 15)				
c) Schools? (1, 2, 13, 14, 15)				
d) Parks or other recreational facilities (1, 2, 13, 14, 15)				
e) Maintenance of public facilities, including roads? (1, 2, 13, 14, 15)				
f) Other governmental services? (1, 2, 15)				

Issues (and Supporting Information Sources):

Potentially Significant Impact Potentially Significant Unless Mitigated Less than Significant Impact No Impact

3. UTILITIES AND SERVICE SYSTEMS. *Would the proposal result in a need for new systems, or substantial alterations to the following utilities:*

- a) Power or natural gas? (1, 2, 13, 17)
- b) Communication systems? (1, 2, 13, 15)
- c) Sewer or septic tanks? (1, 2, 13, 15)
- d) Solid waste and disposal? (1, 13, 15)
- e) Local or regional water treatment or distribution facilities? (1, 13, 15)
- f) Storm water drainage? (1, 13, 15)

Issues (and Supporting Information Sources):

Potentially Significant Impact Potentially Significant Unless Mitigated Less than Significant Impact No Impact

4. POPULATION & HOUSING. *Would the proposal:*

- a) Cumulatively exceed official regional or local population projections? (1, 13, 15)
- b) Induce substantial growth in an area either directly or indirectly (e.g. through projects in an undeveloped area or extension of major infrastructure)? (1, 13, 14, 15)
- c) Displace existing housing, especially affordable housing? (1, 13, 14, 15)

Issues (and Supporting Information Sources):

Potentially Significant Impact Potentially Significant Unless Mitigated Less than Significant Impact No Impact

5. TRANSPORTATION/CIRCULATION. *Would the proposal result in:*

- a) Increased vehicle trips or traffic congestion? (1, 2, 13)
- b) Hazards to safety from design features (e.g. sharp curves or dangerous intersections), incompatible uses (e.g. farm equipment) or barriers for pedestrians or bicyclists? (1, 2, 9, 13, 14)
- c) Inadequacy emergency access or access to nearby uses? (1, 2, 9, 13, 14)
- d) Insufficient parking capacity on-site or off-site? (1, 2, 13)
- e) Conflicts with adopted policies supporting alternative transportation (e.g. bus turnouts, bicycle racks)? (1, 2, 12, 13)
- f) Air or rail traffic impacts? (1, 2, 12, 13)

Issues (and Supporting Information Sources):

Potentially Significant Impact Potentially Significant Unless Mitigated Less than Significant Impact No Impact

6. WATER. *Would the proposal result in:*

- a) Changes in absorption rates, drainage patterns, or the rate and amount of surface runoff? (1, 13, 14, 15)
- b) Exposure of people or property to water related hazards such as flooding and inundation? (1, 2, 13, 14)
- c) Discharge into surface waters, or in other alteration of surface water quality, (e.g., temperature, dissolved oxygen or turbidity)? (1, 13, 14)
- d) Changes in the amount of surface water in any water body? (1, 2, 13, 14)
- e) Changes in currents, or the course or direction of water movements? (1, 2, 13, 14)
- f) Change in the quantity of ground waters, either through direct additions or withdrawals, or through interception of an aquifer by cuts or excavations? (1, 2, 13, 14)
- g) Altered direction or rate of flow of ground waters? (1, 2, 13, 14)
- h) Impacts to ground water quality? (1, 2, 13, 15)

Issues (and Supporting Information Sources):

Potentially Significant Impact Potentially Significant Unless Mitigated Less than Significant Impact No Impact

7. BIOLOGICAL RESOURCES. *Would the proposal result in impacts to:*

- a) Endangered, threatened or rare species or their habitats (including, but not limited to plants, fish, insects, animals, and birds)? (1, 13)
- b) Locally designated species and/or natural communities (e.g. heritage trees, oak forests, etc.)? (1, 13)
- c) Wetland habitat (e.g. marsh, riparian and vernal pools)? (1, 13)
- d) Wildlife dispersal or migration corridors, (including, but not limited to Murrieta Creek, Warm Springs Creek and Cole Creek)? (1, 13)

Issues (and Supporting Information Sources):

Potentially Significant Impact Potentially Significant Unless Mitigated Less than Significant Impact No Impact

8. ENERGY AND MINERAL RESOURCES. *Would the proposal:*

- a) Conflict with adopted energy conservation plans? (1, 15)
- b) Use non-renewable resources in a wasteful and inefficient manner? (1, 15)

Issues (and Supporting Information Sources):

Potentially Significant Impact Potentially Significant Unless Mitigated Less than Significant Impact No Impact

9. CULTURAL RESOURCES. *Would the proposal:*

- a) Disturb paleontological resources? (1t, 13)
- b) Disturb archaeological resources? (1u, 13)
- c) Affect historical resources? (1u, 13)
- d) Have the potential to cause a physical change which would affect unique ethnic cultural values? (1, 13)
- e) Restrict existing religious or sacred uses within the potential impact area? (1, 13)

Issues (and Supporting Information Sources):

Potentially Significant Impact Potentially Significant Unless Mitigated Less than Significant Impact No Impact

10. RECREATION. *Would the proposal:*

- a) Increase the demand for neighborhood or regional parks or other recreational facilities? (1, 2, 13)
- b) Affect existing recreational opportunities? (1, 2, 13)

Issues (and Supporting Information Sources):

Potentially Significant Impact Potentially Significant Unless Mitigated Less than Significant Impact No Impact

11. AESTHETICS. *Would the proposal:*

- a) Affect a scenic vista or scenic highway? (1, 2, 13)
- b) Have a demonstrable negative aesthetic effect? (1, 2, 13)
- c) Create light or glare? (1, 2, 13)

Issues (and Supporting Information Sources):

Potentially Significant Impact Potentially Significant Unless Mitigated Less than Significant Impact No Impact

12. GEOPHYSICAL. *Would the proposal result in or expose people to potential impacts involving:*

- a) Seismicity: fault rupture? (1, 12, 13)
- b) Seismicity: ground shaking or liquefaction? (1, 13, 15)
- c) Seismicity: special study zone? (1, 13, 15)
- d) Landslides or mudslides? (1, 13, 15)
- e) Erosion, changes in topography or unstable soil conditions from excavation, grading or fill? (1, 13, 15)
- f) Subsidence of the land? (1, 13, 15)
- g) Expansive soils? (1, 13, 15)
- h) Unique geologic or physical features? (1, 13, 15)

Issues (and Supporting Information Sources):

Potentially Significant Impact Potentially Significant Unless Mitigated Less than Significant Impact No Impact

13. HAZARDS. *Would the proposal involve:*

- a) A risk of accidental explosion or release of hazardous substances (including, but not limited to: oil, pesticides, chemicals or radiation)? (1, 13, 15)
- b) Possible interference with an emergency response plan or emergency evacuation plan? (1, 13, 15)
- c) The creation of any health hazard or potential health hazard? (1, 13, 15)
- d) Exposure of people to existing sources of potential health hazards? (1, 13, 15)
- e) Increased fire hazard in areas with flammable brush, grass, or trees? (1, 13, 15)

Issues (and Supporting Information Sources):

Potentially Significant Impact Potentially Significant Unless Mitigated Less than Significant Impact No Impact

14. NOISE. *Would the proposal result in:*

- a) Increases in existing noise levels? (1, 13, 15)
- b) Exposure of people to severe noise levels? (1, 13, 15)

Issues (and Supporting Information Sources):

Potentially Significant Impact Potentially Significant Unless Mitigated Less than Significant Impact No Impact

15. AIR QUALITY. *Would the proposal:*

- a) Violate any air quality standard or contribute to an existing or projected air quality violation? (1, 13, 15)
- b) Expose sensitive receptors to pollutants? (1, 13, 15)
- c) Alter air movement, moisture, or temperature, or cause any change in climate? (1, 13, 15)
- d) Create objectionable odors? (1, 13, 15)

Issues (and Supporting Information Sources):

Potentially Significant Impact Potentially Significant Unless Mitigated Less than Significant Impact No Impact

16. MANDATORY FINDINGS OF SIGNIFICANCE.

- a) Does the project have the potential to degrade the quality of environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?
- b) Does the project have the potential to achieve short-term, to the disadvantage of long-term, environmental goals?
- c) Does the project have impacts which are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)
- d) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?

17. DEPARTMENT OF FISH AND GAME "DE MINIMIS" IMPACT FINDINGS.

YES

NO

- a) Does the project have the potential to cause any adverse effect, either individually or cumulatively, on fish and wildlife? Wildlife is defined as "all wild animals, birds, plants, fish, amphibians, and related ecological communities, including the habitat upon which the wildlife depends on for it's continued viability" (Section 711.2, Fish and Game Code).
